

Appropriate Classroom Behavior

2 pages | 271 words

Behavior is a choice, and a teacher's role is to aid students when learning to make good choices.

Inappropriate behavior is not acceptable. It should be followed by negative consequences and therefore be discouraged. When the teacher responds to different behaviors, either positive, or negative, it teaches the student something.

A school is a place where students are given the opportunity to learn and receive an education as well as socialize. Part of the learning process is interaction, however, it should only occur when the time is suitable. Being in the classroom should be considered a privilege. That privilege should only be given if a student's behavior does not interfere with the ability of the teacher to teach effectively or the ability of other students to participate in classroom learning activities.

Consequences should be given to individual students who choose to interrupt the teacher's lesson or distract others. A whole class should not be punished but should be aware of how that behavior was not right.

Examples of students' appropriate behavior include:

- Being on time for class
- Speaking in a respectful tone
- Making eye contact with your instructor and with each other
- Taking care not to disturb others when speaking or using devices that might make noise
- Making sure you are ready to participate in class discussions before they begin, etc.

The following are some examples of inappropriate behavior: Talking without permission

- Running around without any reason
- Disturbing others by talking loudly or making noise
- Not paying attention when the teacher is speaking
- Chewing gum or eating food during class time
- Using your phone unless it is an emergency, etc.
