Alphabet Poem On Racing:

Rhythm and Race in Modernist Poetry and Science Michael Golston, 2007-12-21 In the half century between 1890 and 1950 a variety of fields and disciplines from musicology and literary studies to biology psychology genetics and eugenics expressed a profound interest in the subject of rhythm In this book Michael Golston recovers much of the work done in this area and situates it in the society politics and culture of the Modernist period He then filters selected Modernist poems through this archive to demonstrate that innovations in prosody form and subject matter are based on a largely forgotten ideology of rhythm and that beneath Modernist prosody is a science and an accompanying technology In his analysis Golston first examines psychological and physiological experiments that purportedly proved that races responded differently to rhythmic stimuli He then demonstrates how poets like Ezra Pound W B Yeats Mina Loy and William Carlos Williams either absorbed or echoed the information in these studies using it to hone the innovative edge of Modernist practice and fundamentally alter the way poetry was written Golston performs close readings of canonical texts such as Pound's Cantos Yeats's Lake Isle of Innisfree and William Carlos Williams's Paterson and examines the role the sciences of rhythm played in racist discourses and fascist political thinking in the years leading up to World War II Recovering obscure texts written in France Germany England and America Golston argues that Rhythmics was instrumental in generating an international modern art and should become a major consideration in our reading of reactionary avant garde poetry *Great Races of Mankind* John Clark Ridpath, 1893 **Race and Language** André Lefèvre, 1894 Deaf American Literature Cynthia Peters, 2000 The moment when a society must contend with a powerful language other than its own is a decisive point in its evolution This moment is occurring now in American society Peters explains precisely how ASL literature achieved this moment tracing its past and predicting its future in this trailblazing study Peters connects ASL literature to the literary canon with the archetypal notion of carnival as the counterculture of the dominated Throughout history carnivals have been opportunities for the low disenfranchised elements of society to displace their high counterparts Citing the Deaf community's long tradition of literary nights and festivals like the Deaf Way Peters recognizes similar forces at work in the propagation of ASL literature The agents of this movement Deaf artists and ASL performers Tricksters as Peters calls them jump between the two cultures and languages Through this process they create a synthesis of English literary content reinterpreted in sign language which also raises the profile of ASL as a distinct art form in itself Peters applies her analysis to the craft's landmark works including Douglas Bullard's novel Islay and Ben Bahan's video recorded narrative Bird of a Different Feather Deaf American Literature the only work of its kind is its own seminal moment in the emerging discipline of ASL literary criticism *The goal of the human race; or, The development of civilisation, tr. by J.G. Deimler and W. St. C. Tisdall* Rudolf Friedrich Grau, 1892 **Topographies of Caribbean Writing, Race, and the British Countryside** Joanna Johnson, 2019-01-04 How do Caribbean writers see the British countryside Do they feel included ignored marginalised In Topographies of Caribbean

Writing Race and the British Countryside Joanna Johnson shows how writers like Derek Walcott V S Naipaul Jean Rhys Grace Nichols Andrea Levy and Caryl Phillips have very different and unexpected responses to this rural space Johnson demonstrates how Caribbean writing shows greater complexity and wider significance than accounts and understandings of the British countryside have traditionally admitted at the same time close examination of these works illustrates that complexity and ambiguity remain an essential part of these authors relationships with the British countryside of their colonial or postcolonial imaginations This study examines accepted norms and raises questions about urgent issues of belonging Britishness and Commonwealth identity

Language, Nation, Race Atsuko Ueda, 2021-06 Language Nation Race is an exceptional book It not only provides a cogent interpretation of Meiji era linguistic and literary reform movements but it also productively challenges the current scholarly consensus regarding the meaning of these movements On top of that Ueda makes an entirely original and convincing argument about the relevance of whiteness to the understanding of linguistic aesthetic and cultural values within these movements James Reichert Associate Professor of East Asian Languages and Cultures Stanford University A remarkable accomplishment bound to have a lasting impact in the field of Japan Studies and beyond Ueda s compelling reading of Meiji period literary and linguistic debates opens new avenues for a philosophical questioning of phoneticism and its significance to the formation of the geopolitical categories of West and non West Pedro Erber author of Breaching the Frame The Rise of Contemporary Art in Brazil and Japan

The Races of the Old World: a Manual of Ethnology Charles Loring Brace, 1870 *Library of Universal History, Containing a Record of the Human Race from the Earliest Historical Period to the Present Time* Israel Smith Clare, 1899 *History of Baluch Race and Baluchistan* Muhammad Sardar Khan Baluch, 1977 *The Coming Race* Edward Bulwer Lytton Baron Lytton, 1878
