S Census Bureau has devised truly useful straightforward tables translating Library of Congress call numbers into Dewey
Decimal class numbers and Dewey into LC Aimed at both converting entire collections and the search for call numbers for
individual records this will prove to be an effective aid for catalogers Starting with LC numbers in strict order the Dewey
equivalent is listed immediately to the right followed by a brief precise descriptor This process is duplicated for the Dewey
numbers While not as inclusive or descriptive as the actual schedules the coverage is comprehensive If more precision is
required the citations will direct catalogers to appropriate areas of the actual schedules Geographic and other standard
extensions are included This work should also be considered by reference departments for work with patrons familiar with
one scheme but not the other
