Rock Climbing: The AMGA Single Pitch Manual Bob Gaines, Jason D. Martin, 2014-05-20 Rock Climbing The AMGA Single Pitch Manual is intended to serve as a textbook for past and future participants of the AMGA SPI program. The book more specifically address the needs of the professional climbing instructor and advanced recreational climbers. It presents the most current internationally recognized standards for technical climbing systems used in single pitch rock terrain. Included are chapters on effective teaching in the outdoor environment, risk management, professionalism, environmental awareness and rescue.

Technical Handbook for Mountain Guides American Mountain Guides Association, 1999 Joint publication of the two associations. Topics include professionalism, mountain sense, client care, terrain assessment, risk management, technical systems application for guides, instructional techniques.

The Mountain Guide Manual Marc Chauvin, Rob Coppolillo, 2017-05-15 Written by the International Federation of Mountain Guides Association IFMGA certified mountain guides Marc Chauvin and Rob Coppolillo. The Mountain Guide Manual is the go to reference for novice and experienced mountain guides as well as advanced recreationalists. Covering everything from rope systems and belaying to advice on group dynamics and rescuing, the manual combines practical how to instruction with clear graphics, illustrations and awe inspiring alpine imagery.

Shifts in Knowledge Sharing and Creativity for Business Tourism Bari, Muhammad Waseem, Soliman, Mohammad, Alaverdov, Emilia, 2024-04-03 In the contemporary landscape, the significance of business tourism has surged, drawing substantial attention from researchers in the realms of social and management sciences. Defined as an individual's travel outside their local town for business opportunities, transactions, enjoyment, and learning, business tourism has undergone notable shifts, especially in the wake of the COVID 19 pandemic. The book titled "Shifts in Knowledge Sharing and Creativity for Business Tourism" emerges as a solution to unravel the positive and negative impacts of the pandemic on business traveling, specifically addressing changes in the frequency of business tourism and its effects on employee learning and knowledge transfer skills. This book meticulously covers a spectrum of aspects related to the evolving landscape of business tourism post COVID 19. Its objective is multifaceted: first to underscore the importance of business tourism in the domains of social sciences and management sciences literature; second to deepen the understanding of how business tourism facilitates learning across diverse theories and concepts through interactions with different cultures; third to explore the transferability of knowledge learned in various places to domestic implementations; fourth to enhance individual and organizational innovation and creativity skills catalyzed by business tourism; and fifth to delve into the dynamics of tacit and explicit knowledge transfer in the post-pandemic business environment.

Buried Ken Wylie, 2014 On January 20, 2003, at 10:45 a.m., a massive avalanche released from Tumbledown Mountain in the Selkirk Range of British Columbia. Tonnes of snow carried 13 members of two guided backcountry skiing groups down the 37-degree incline of a run called La Traviata and buried them. After a frantic hour of digging by remaining group members, an unthinkable outcome became reality: Seven

people were dead. The tragedy made international news, splashing photos of the seven dead Canadian and US skiers on television screens and the pages of newspapers. The official analysis did not specifically note guide error as a contributing factor in the accident. This interpretation has been insufficient for some of the victims' families, the public and some members of the guiding community. Why did the guiding team seemingly ignore a particularly troublesome snowpack? Why were two groups travelling so close together? Were the guides adhering to best practices for terrain selection and snow stability evaluation? What motivated them to go there? Buried is the assistant guide's story. It renders an answerable truth about what happened by delving deep into the human factors that played into putting people in harm's way. The story begins buried metres deep in snow and through care filled reflection emerges slowly like spring after a long winter, nurturing a hopeful courageous dialogue for all who make journeys through the mountains of their life. The story illustrates the peace that comes from accountability and the growth that results from understanding. *Summit Magazine*, 1991 **Skiing**, 2006-12
