Distributive Property Activity For Middle School:

Teaching Middle School Mathematics Douglas K. Brumbaugh, 2013-05-13 Middle school teaching and learning has a distinct pedagogy and curriculum that is grounded in the concept of developmentally appropriate education. This text is designed to meet the very specific professional development needs of future teachers of mathematics in middle school environments. Closely aligned with the NCTM Principles and Standards for School Mathematics, the reader-friendly interactive format encourages readers to begin developing their own teaching style and making informed decisions about how to approach their future teaching career. A variety of examples establish a broad base of ideas intended to stimulate the formative development of concepts and models that can be employed in the classroom. Readers are encouraged and motivated to become teaching professionals who are lifelong learners. The text offers a wealth of technology-related information and activities, reflective thought-provoking questions, mathematical challenges, student life-based applications, TAG tricks, activities, games, sections, and group discussion prompts to stimulate each future teacher's thinking. Your Turn sections ask readers to work with middle school students directly in field experience settings. This core text for middle school mathematics methods courses is also appropriate for elementary and secondary mathematics methods courses that address teaching in the middle school grades and as an excellent in-service resource for aspiring or practicing teachers of middle school mathematics as they update their knowledge base. Topics covered in *Teaching Middle School Mathematics*: NCTM Principles for School Mathematics, Representation, Connections, Communication, Reasoning, and Proof, Problem Solving, Number and Operations, Measurement, Data Analysis, and Probability, Algebra in the Middle School Classroom, and Geometry in the Middle School Classroom.

Differentiated Instruction for the Middle School Math Teacher Karen E.

D'Amico, Kate Gallaway, 2008-01-02 *Differentiated Instruction for the Middle School Math Teacher* is a practical and easy-to-use resource for teaching a standards-based math curriculum to all learners. It gives you effective ways to present math concepts, shows how to provide opportunities for guided practice, and offers ideas for modifying the material to provide access to the same content standard for all students in the inclusive classroom. This book also contains key strategies for collaborating with other professionals, suggestions for involving the students' families by tying math concepts to students' everyday lives, and valuable assessment strategies. The lessons in the book cover middle school math topics correlated to the standards of the National Council of Teachers of Math, ranging from numbers and operations to problem solving and reasoning. Each lesson includes instructions for presenting the lesson to the whole class, worksheets designed to help review and reinforce the concepts presented in each lesson, a section on how to adapt the lesson for the inclusive classroom, including descriptions of different stations for different learners, a home-school connection with family-based everyday math activities, suggestions for how to assess students' grasp of the concepts presented in the lesson.
