

Questions 24-33. Read the following lines carefully before you choose your answers.

Now to the ascent of that steep savage hill
 Satan had journeyed on, pensive and slow;
 But further way found none; so thick entwined,
 As one continuous bower, the undergrowth
 Of shrubs and tangling bushes had perplexed
 All path of man or beast that passed that way.
 One gate there only was, and that looked east
 On the other side: which when the Arch-Felon saw,
 Due entrance he disdained, and, in contempt,
 At one slight bound high overleaped all bound
 Of hill or highest wall, and sheer within
 Lights on his feet. As when a prowling wolf,
 Whom longer drives to seek new haunt for prey,
 Watching where shepherds pen their flocks at eve,
 In hurdled coets amid the field secure,
 Leaps o'er the fence with ease into the fold;
 Or as a thief bent to unhoard the cash
 Of some rich burgher, whose substantial doors,
 Cross-barred and bolted fast, fear no assault.
 In at the window climbs, or o'er the tiles:
 So climbs this first grand Thief into God's fold;
 So since into his Church lewd hirelings climb.

(1667)

Statistical Methods for Healthcare Performance Monitoring Alex Bottle, Paul Aylin, 2016-08-05

Healthcare is important to everyone yet large variations in its quality have been well documented both between and within many countries. With demand and expenditure rising, it's more crucial than ever to know how well the healthcare system and all its components from staff member to regional network are performing. This requires data which inevitably differ in form and quality. It also requires statistical methods, the output of which needs to be presented so that it can be understood by whoever needs it to make decisions. Statistical Methods for Healthcare Performance Monitoring covers measuring quality, types of data, risk adjustment, defining good and bad performance, statistical monitoring, presenting the results to different audiences, and evaluating the monitoring system itself. Using examples from around the world, it brings all the issues and perspectives together in a largely non-technical way for clinicians, managers, and methodologists. Statistical Methods for Healthcare Performance Monitoring is aimed at statisticians and researchers who need to know how to measure and compare performance, health service regulators, health service managers with responsibilities for monitoring performance, and quality improvement scientists including those involved in clinical audits.
