501 Contractor Tips:

501 Contractor Tips Greg Vanden Berge, 2011-04-27 This book is full of my personal successes and failures as a contractor and construction worker. It hasn't always been easy and for the most part I made it harder than it needed to be but you don't need to. Why should you repeat the same mistakes I made years ago? I would've paid five hundred dollars or more for the information inside this book when I started. Heck, I probably would've paid 1000 for the information inside this book ten or fifteen years into my career. When I first started I had problems dealing with my clients and other construction workers. After that I had problems getting paid on time or getting paid period. Then I had to deal with the ultimate problem: either too much or not enough work. The challenges were often overwhelming and I can't tell you how many times I wanted to quit. I had to make a change and those changes led me to learn more about construction business and psychology. The more I learned the easier my job became and this motivated me to start learning about other things which eventually made my job even easier. If you don't believe you need to Read to Succeed, you're going to remain stuck where you are. Forever. I was your average student in school who started a construction business at 25 years old with less than 1000 in the bank. Can You Believe That? It wasn't easy and I would have given practically anything to have the opportunity you have in front of you today. To benefit from the years of my experience and for under fifty bucks. Come on, this one is a no-brainer. Education is the key to success, my friend, so let's get started on your journey towards a better life as a successful contractor, money-making machine and personal development junkie. Wishing You The Best, Greg Vanden Berge

Simplified Guide For Hiring Contractors
Greg Vanden Berge, 2011-04-28 Contractor Secrets Finally Revealed To The Public. For years I've been threatening contractors to write a book like this and I finally did. Some of the contractors I've worked with in the past don't want the information in this book to ever be revealed. Contractor secrets like these are usually taken to the grave and wouldn't ever be revealed. These secrets can provide property owners with valuable negotiating tools that contractors desperately don't want you to have. You can't negotiate effectively if you don't understand your opponent. In this book you'll learn how to negotiate effectively with contractors, compare estimates and find contractors. This book provides you with plenty of tips on how to sort through the professionals to find the real winners. Contractor's Personalities. In recent years, human behavior and psychology have played an important role in construction job sales. Contractors like myself are starting to study and learn more about different personalities. Some of this information is priceless and if you're looking for a good contractor, you need to understand how to communicate and interact with them effectively. Hiring the wrong contractor isn't just going to cost you a lot of money or waste your time; it's going to create other problems that you might not be aware of. There's a section in this book that talks about conflicting personalities and how you can avoid dealing with them. If you're an arrogant person, there's a good chance that you're not going to get along with another arrogant person. If you're someone who can't make decisions and you're not interested in someone forcing you to make them, you'll need to avoid hiring an aggressive contractor.

Aggressive contractors can force their clients into accepting unnecessary change orders and creating a hostile working environment In the book you ll find personalities that don t work well with other personalities and this by itself could be worth 10 times the actual amount you re actually paying for this book **Arkansas 2020 Journeyman Electrician Exam Questions and Study Guide** Ray Holder,2020-05-07 The Arkansas 2020 Journeyman study guide will help you prepare for the exam by providing 12 practice open book exams and 2 Final Closed Book Exams Includes Arkansas License Forms and Sample Applications This book also covers most topics that are included on all Journeyman Electricians exams such as conductor sizing and protection motors transformers voltage drop over current protection and residential and commercial load calculations The text contains the most widely used electrical calculations and formulas the reader needs to pass the Journeyman electrical competency exam About the AuthorRay Holder has worked in the electrical industry for more than 40 years as an apprentice journeyman master field engineer estimator business manager contractor inspector and instructor He is a graduate of Texas State University and holds a Bachelor of Science Degree in Occupational Education A certified instructor of electrical trades he has been awarded a lifetime teaching certificate from the Texas Education Agency in the field of Vocational Education Mr Holder has taught thousands of students at Austin Community College Austin Texas Odessa College at Odessa Texas Technical Vocational Institute of Albuquerque New Mexico Howard College at San Angelo Texas and in the public school systems in Fort Worth and San Antonio Texas He is currently Director of Education for Electrical Seminars Inc of San Marcos Texas Mr Holder is an active member of the National Fire Protection Association International Association of Electrical Inspectors and the International Brotherhood of Electrical Workers **Arkansas 2020 Master Electrician Exam Questions and Study Guide** Ray Holder, The Arkansas 2020 Master study guide will help you prepare for the exam by providing 12 practice open book exams and 2 Final Closed Book Exams Includes Arkansas License Forms and Sample Applications This book also covers most topics that are included on all Master Electricians exams such as conductor sizing and protection motors transformers voltage drop over current protection and residential and commercial load calculations The text contains the most widely used electrical calculations and formulas the reader needs to pass the Master electrical competency exam About the AuthorRay Holder has worked in the electrical industry for more than 40 years as an apprentice journeyman master field engineer estimator business manager contractor inspector and instructor He is a graduate of Texas State University and holds a Bachelor of Science Degree in Occupational Education A certified instructor of electrical trades he has been awarded a lifetime teaching certificate from the Texas Education Agency in the field of Vocational Education Mr Holder has taught thousands of students at Austin Community College Austin Texas Odessa College at Odessa Texas Technical Vocational Institute of Albuquerque New Mexico Howard College at San Angelo Texas and in the public school systems in Fort Worth and San Antonio Texas He is currently Director of Education for Electrical Seminars Inc of San Marcos Texas Mr Holder is an active member of the National Fire Protection Association International Association of
