Idea Mapping Jamie Nast, 2012-06-15 Praise for Idea Mapping: Nast's work in Idea Mapping enables those with creative minds to clearly lay out their thinking process and those who are more process minded to become creative. If your organization is looking for a pragmatic step by step guide to idea mapping, this is it. Chris Brown, Executive Vice President, DTE Energy Resources: I have used idea maps for thirty years and have taught MBA students, employees, and my children how to harness their power. I strongly recommend this book and believe you will feel it to be one of the best investments you have ever made in your own growth. Stephen C. Lundin, coauthor, FISH: This is a book that everyone should read. It's an interactive, thought provoking book about the brain and learning that will expand your mind. Nast, an accomplished and well respected instructor, has guided me into a new realm of learning experiences and possibilities. I'm sure you will feel the same upon reading her insightful work. Simon Tai, CEO, Buzan Centre Taiwan, and S.J. Media Intergration Co. Ltd, Host of News Discovery on NEWS 98 Taiwan: Nast shows you a revolutionary method to capture your thinking processes. Don't underestimate the simplicity of idea mapping because therein lies its genius. Scott Hagwood, four time USA Memory Champion, author, Memory Power: The ability to visually capture and organize thoughts and ideas has enabled millions of people around the world to do their work with greater creativity and productivity. Run their businesses more strategically and manage complex projects more efficiently. Even map out a sales process or new product roll out. Nast's very practical, readable book will get you quickly up to speed on one of the simplest but most powerful ways to organize your ideas, your work, and yourself. Mike Jetter, cofounder and CTO, Mindjet Corporation, coauthor, The Cancer Code: The principles Nast writes about in Idea Mapping have become a staple for me over the past fourteen years. I was turned onto the concept of idea mapping in 1992 and have been a student and practitioner ever since. This has absolutely transformed the way I learn, design, learning, and prepare for public speaking. I have never been more confident in my recall knowing the content is nicely tucked away in my brain as it was designed to be. Get ready for a life changing experience for yourself and those you influence. Will Flora

Advancing the forest and water nexus

Food and Agriculture Organization of the United Nations, 2019-10-18 Forests are intrinsically linked to water forested watersheds provide 75 percent of our accessible freshwater resources Millennium Ecosystem Assessment 2005 and both forest and water resources are relevant to the achievement of all 17 Sustainable Development Goals Despite the important interlinkages the forest water nexus is often unaccounted for in policy and planning For example three quarters of forests are not managed for soil and water conservation which poses a fundamental challenge to achieving sustainable and resilient communities and ecosystems It is paramount to employ an integrated approach to forest and water resources in management and policy that takes into account the complexity and contextual nature of forest water relationships To achieve this we must improve our understanding of forest water relationships within local contexts and at different scales as well as our ability to design implement and learn from landscape approaches that both rely on these forest water relationships and impact them In this context FAO's Forest and Water Programme has developed a module based capacity development facilitation guide for project and community stakeholders involved in forest water and natural resource management to ensure we apply our knowledge to better manage forests and trees for their multiple benefits including water quantity quality and the associated socio economic benefits that people within and outside forests so heavily depend on
