

# APUSH Study Guide Period 3

PERIOD 3: 1750-1800

## Key Concepts:

How to use this section: Think about these big ideas of the unit in essay questions. If you had to write a five paragraph essay about each of these topics, what would that include? Try to brainstrom in that way.

- Key Concept 3.1:** British attempts to assert tighter control over its North American colonies and the colonial resolve to pursue self-government led to a colonial independence movement and the Revolutionary War.
- Key Concept 3.2:** The American Revolution's democratic and republican ideals inspired new experiments with different forms of government.
- Key Concept 3.3:** Migration within North America and competition over resources, boundaries, and trade intensified conflicts among peoples and nations.

## Main Ideas:

How to use this section: For every idea, think about what names and key concepts from below fit each of these. Try to "match" each vocabulary word to a section here to place the words in a timeline and within historical context.

- The competition among the British, French, and American Indians for economic and political advantage in North America culminated in the Seven years' War (the French and Indian War), in which Britain defeated France and allied American Indians.
- The desire of many colonists to assert ideals of self-government in the face of renewed British imperial efforts led to a colonial independence movement and war with Britain.
- The ideals that inspired the revolutionary cause reflected new beliefs about politics, religion, and society that had been developing over the course of the 18th century.
- After declaring independence, American political leaders created new constitutions and declarations of rights that articulated the role of the state and federal governments while protecting individual liberties and limiting both centralized power and excessive popular influence.
- New forms of national culture and political institutions developed in the United States alongside continued regional variations and differences over economic, political, social, and foreign policy issues.
