**SEC Docket** United States. Securities and Exchange Commission, 2014      *The Functions of Arbitral Institutions* Rémy Gerbay, 2016-04-20 While thousands of cross border disputes are successfully resolved each year through institutional arbitration there appears to be little understanding of the functions exercised by arbitral institutions and their impact on the proceedings they administer Much like the user of a computer may operate with relative success a machine which he does not fully comprehend users of institutional arbitration have for many decades resolved their disputes successfully through institutional arbitration without fully understanding the precise nature of the functions of what is a key player in the process This book rectifies this paradoxical gap It offers a clear yet nuanced overview of the diverse and complex reality of institutional arbitration while challenging the assumptions conventionally held as to the role of arbitral institutions This book is the product of a systematic study of the activities performed by over forty leading international arbitration institutions worldwide in their administration of cases including the ICC LCIA ICDR SCC SIAC HKIAC JAMS CIETAC KLRCA DIS DIA NAI CEPANI etc This book also examines a wealth of court decisions and bibliographical sources from the leading civil law and common law jurisdictions e g France England Wales the United States Switzerland Germany This book is invaluable to academics and practitioners interested in furthering their theoretical and practical understanding of institutional arbitration and arbitral institutions      "Code of Massachusetts regulations, 2013", 2013 Archival snapshot of entire looseleaf Code of Massachusetts Regulations held by the Social Law Library of Massachusetts as of January 2020      **Arbitration in Switzerland** Dr. Manuel Arroyo, 2018-08-06 Arbitration in Switzerland      *The Future of High-Cost Credit* Jodi Gardner, 2022-07-14 This book proposes a new way of thinking about the controversial and complex challenges associated with the regulation of high cost credit specifically payday lending These products have received significant attention in both the media and political arena The inadequacy of regulatory interventions has created ongoing problems with the provision of high cost credit particularly for consumers with lesser bargaining power and who are already financially vulnerable The book tackles two specific gaps in the existing literature The first involves inadequate analysis of the relevant philosophical concepts around high cost credit which can result in an over simplification of what are particularly complex issues The second is a lack of engagement in both the market and lived experience of borrowers resulting in limited understanding of those who use these financial products The Future of High Cost Credit explores the theoretical grounding policy initiatives and interdisciplinary perspectives associated with high cost credit making a novel and insightful contribution to the existing literature The problems with debt extend far beyond the legal sphere and the book will therefore be of interest to many other academic disciplines as well as for those working in public policy and the third sector      *Multi-Party and Multi-Contract Arbitration in the Construction Industry* Dimitar Kondev, 2017-01-23 Multi Party and Multi Contract Arbitration in the Construction Industry provides the first detailed review of multi party arbitration in the international construction sector
