

APUSH UNIT 4 REVIEW GUIDE (1800-1848)

For Students Preparing for the AP® United States History Exam

RICHEY

10-17%
of the AP® exam

This review unit of the AP® United States History (APUSH) exam focuses on the period from 1800 to 1848, from Jefferson's presidency through the era of Jacksonian democracy and Antebellum reform. This unit is eligible for the assessment every portion of the exam preceding the Day 2.

POLITICS IN THE ERA OF JEFFERSON

Thomas Jefferson referred to his victory in the 1800 election as a "revolution." In some ways, this claim was justified, as Jefferson's party secured control of both the presidency and Congress. Jefferson was naive and believed appealing to living above the status of a "wise and frugal government." His greatest success was the Louisiana Purchase, opening control of the Mississippi River and paving the way for western expansion. In foreign policy, Jefferson advocated neutrality, undercutting Washington's neutrality policy during the Napoleonic Wars.

Jefferson was never able to gain control of the federal judiciary, where entrenched members served life terms. John Marshall, a Federalist who was nominated as chief justice by John Adams, exercised considerable influence over the judiciary. In *Marbury v. Madison* (1803), Marshall declared that the Supreme Court had the power of judicial review, allowing it to determine laws that conflicted with the Constitution. The *McCulloch v. Maryland* (1819) decision upheld the constitutionality of the national bank, strengthening the power of the federal government.

Chief Justice John Marshall maintained the Federalist legacy until the 1830s.

AMERICA ON THE WORLD STAGE

Jefferson had opposed Washington's Neutrality Policy during the 1790s, but chose to maintain the policy as president. "Peace, commerce, and friendly friendship with all nations," Jefferson said in his First Inaugural Address, "extending alliances with none." When Britain's Royal Navy began boarding American ships and impressing (forcing) American sailors into service, Jefferson chose to advocate for the Embargo Act, which cut off foreign trade, rather than actively involve the United States in the Napoleonic Wars. The Embargo Act was a failure to the point that Jefferson's successor, James Madison, gave in to congressional demands for war with Britain. The War of 1812 resulted in a neutral boundary between the United States and Canada and ended British support for Native American tribes in the Great Lakes region.

After the War of 1812, American leaders turned their attention toward the American continents. In 1823, President James Monroe's administration issued the Monroe Doctrine, declaring that the United States would oppose any further European intervention of the Americas. Although the United States lacked the military strength to enforce the Monroe Doctrine at the time, the doctrine became a hallmark of American foreign policy.

THE MASSACHUSETTS REVOLUTION

After the War of 1812, the United States began transitioning from a primarily agricultural economy toward capitalism focusing based on commerce. Historians describe this transition as the "Second Revolution." After struggling during the embargo, New England became the first region to focus in textile manufacturing. Thousands of people returned and took work at the textile mills in Massachusetts.

New England's cities began to grow, thanks to revolutionized transportation, running rivers into railways. Eli Whitney's棉 gin made cotton a profitable cash crop for Southern planters with the condition that cotton be sold (because no slaves could do the arduous labor to break the cotton plant fibers in the region's sticky soil).

In the early 1800s, steam-powered cotton gins revolutionized cotton production by replacing manual labor with steam-powered cotton gin workers.

THE POLITICS OF SECTIONALISM

Andrew Jackson's victory at New Orleans ended the War of 1812 on a high note, spurring a surge of national pride. Americans emerged from the war eager for economic growth and to increase the national economy's reliance on Europe. Henry Clay's American System sought to use a national bank, protective tariffs, and federal funding for internal improvements to spur economic growth and independence from Europe. Southern politicians opposed the American System, as they favored cotton for the region's industrial goods and remained skeptical about large banking institutions. The Missouri Compromise temporarily resolved sectional disputes about the expansion of slavery by admitting Missouri into the Union as a slave state and restricting slavery north of the 36°30' line in the Louisiana Purchase.
