A Murder In The Hills Ankit Sharma,2021-11-02 Four orphans four different personalities but their destinies intertwined Things are not always what they seem like life can be painful life can be cruel Raghav Kabir Suhani and Ragini become friends in the orphanage and move out only to experience something that would change their lives forever Detective Abhijit an alcoholic struggling with his past gets involved in a murder completely unaware of a bigger threat to his city Shimla Will he be able to find the killer *Handbook on the Geographies of Power* Mat Coleman,John Agnew,2018-07-27 The so called spatial turn in the social sciences means that many researchers have become much more interested in what can be called the spatialities of power or the ways in which power as a medium for achieving goals is related to where it takes place Most famous authors on the subject such as Machiavelli and Hobbes saw power as entirely equivalent to domination exercised by some over others Though this meaning is hardly redundant understandings of power have become more multidimensional and nuanced as a result of the spatial turn Much recent writing in human geography for example has rigorously extended use of the term power beyond its typical understanding as a resource that pools up in some hands and some places to a medium of agency that has different effects depending on how it is deployed across space and how actors cooperate or not to give it effect To address this objective the book is organized thematically into four sections that cover the main areas in which much of the contemporary work on geographies of power is concentrated bodies economy environment and energy and war

Mike Mayo, Jim Olenski, 2001 Green Fraud Marc Morano, 2021-03-23 If you care about America's future read this book  
Mark Levin A must read book that shows how the Green New Deal is dangerous impractical misguided and guaranteed to fail  
with disastrous results for the American people Sean Hannity A New Lockdown to Save the Climate That's what's in store for  
us if Alexandria Ocasio Cortez and the Democrats pass their radical climate plan the Green New Deal It is packed with  
guarantees so completely irrelevant to the problem it purports to solve like free college and incomes for everyone unable or  
unwilling to work that even its boosters have admitted it's not really about the climate The intrepid Marc Morano author of  
the bestselling Politically Incorrect Guide to Climate Change breaks down the science and the politics to expose the truth  
about the Green New Deal The science is settled copious evidence and prominent defections from the climate consensus  
make clear we are not facing a man made climate disaster Climate change is the perfect Trojan horse for the socialist agenda  
of the Left Fossil fuels lifted the West out of poverty but our elites now want to deny them to the world's poor The Green New  
Deal is on a collision course with self government and our fundamental rights Climate change has already been solved  
multiple times over the past two decades with highly touted international agreements and yet it never goes away as an  
excuse for leftist policies that will cripple our economy impoverish the world and take away our freedoms Packed with telling  
statistics damning quotations and real science Green Fraud is your source for all the facts you need to understand and resist

BOOK CLUB PICK Named a Kirkus Reviews Best Book of 2021 Becoming Abolitionists is ultimately about the importance of  
asking questions and our ability to create answers And in the end Purnell makes it clear that abolition is a labor of love one  
that we can accomplish together if only we decide to Nia Evans Boston Review For more than a century activists in the  
United States have tried to reform the police From community policing initiatives to increasing diversity none of it has  
stopped the police from killing about three people a day Millions of people continue to protest police violence because these  
solutions do not match the problem the police cannot be reformed In Becoming Abolitionists Purnell draws from her  
experiences as a lawyer writer and organizer initially skeptical about police abolition She saw too much sexual violence and  
buried too many friends to consider getting rid of police in her hometown of St Louis let alone the nation But the police were  
a placebo Calling them felt like something and something feels like everything when the other option seems like nothing  
Purnell details how multi racial social movements rooted in rebellion risk taking and revolutionary love pushed her and a

generation of activists toward abolition The book travels across geography and time and offers lessons that activists have learned from Ferguson to South Africa from Reconstruction to contemporary protests against police shootings Here Purnell argues that police can not be reformed and invites readers to envision new systems that work to address the root causes of violence Becoming Abolitionists shows that abolition is not solely about getting rid of police but a commitment to create and support different answers to the problem of harm in society and most excitingly an opportunity to reduce and eliminate harm in the first place

Beyond These Walls Tony Platt, 2019-01-08 You should definitely read this book What really struck me in reading Beyond These Walls was that Tony Platt had very seriously and carefully considered the contributions of social movements feminist queer disability and labor Angela Davis Beyond These Walls is an ambitious and far ranging exploration that tracks the legacy of crime and imprisonment in the United States from the historical roots of the American criminal justice system to our modern state of over incarceration and offers a bold vision for a new future Author Tony Platt a recognized authority in the field of criminal justice challenges the way we think about how and why millions of people are tracked arrested incarcerated catalogued and regulated in the United States Beyond These Walls traces the disturbing history of punishment and social control revealing how the criminal justice system attempts to enforce and justify inequalities associated with class race gender and sexuality Prisons and police departments are central to this process but other institutions from immigration and welfare to educational and public health agencies are equally complicit Platt argues that international and national politics shape perceptions of danger and determine the policies of local criminal justice agencies while private policing and global corporations are deeply and undemocratically involved in the business of homeland security Finally Beyond These Walls demonstrates why efforts to reform criminal justice agencies have often expanded rather than contracted the net of social control Drawing upon a long tradition of popular resistance Platt concludes with a strategic vision of what it will take to achieve justice for all in this era of authoritarian disorder
