

ATI Maternal Newborn Proctored Exam 2023-2024

(Complete verified answers and Resource
for the Exam)

1. Two days after delivery, a postpartum client prepares for discharge. What should the nurse teach her about lochia flow?

Incorrect: Lochia does change color but goes from lochia rubra (bright red) on days 1-3, to lochia serosa (pinkish brown) on days 4-9, to lochia alba (creamy white) days 10-21.

Incorrect: Numerous clots are abnormal and should be reported to the physician.

Incorrect: Saturation of the perineal pad is considered abnormal and may indicate postpartum hemorrhage.

Correct: Lochia normally lasts for about 21 days, and changes from a bright red, to pinkish brown, to creamy white.

The color of the lochia changes from a bright red to white after four days

Numerous large clots are normal for the next three to four days

Saturation of the perineal pad with blood is expected when getting up from the bed

Lochia should last for about 3 weeks, changing color every few days

2. A nurse monitors fetal well-being by means of an external monitor. At the peak of the contractions, the fetal heart rate has repeatedly dropped 30 beats/min below the baseline. Late decelerations are suspected and the nurse notifies the physician. Which is the rationale for this action?

Incorrect: A nuchal cord (cord around the neck) is associated with variable decelerations, not late decelerations.

Incorrect: Variable decelerations (not late decelerations) are associated with cord compression.

Its concise review of all of the essential content makes it an extremely user friendly text particularly for students who struggle as they try to take in a tremendous amount of material during the 14 week semester. Many of my previous students have sworn that they never would have successfully completed all of the course objectives without this volume. Linda Walsh, Faculty, University of San Francisco. The best features of this book are: 1 Concise short chapters followed immediately by practice questions right after you have studied a topic 2 An excellent framework for making your own condensed notes to facilitate quick review 3 Complete outline of each topic at the beginning of each chapter 4 Use of unique symbols and boldface and italic type will help you to quickly identify each of the steps of the nursing process, hands on nursing care, diets, medications, lab and diagnostic tests and test taking tips 5 A FREE DISK with additional questions with alternate item format is also included for further practice and self assessment.
