**School Reform in an Era of Standardization** Ian Hardy, 2020-12-29. School Reform in an Era of Standardization explores how teachers and school based administrators navigate the processes of accountability and standardization in schooling systems and settings. It provides clear insights into how the work and learning of teachers and students in schools have been dramatically reconstituted by increased pressures of external political scrutiny and accountability. The book reveals in detail the nature and effects of standardization processes upon schools and schooling systems. Specifically it shows how curriculum development, teaching and assessment practices have all been recalibrated under conditions of increased external scrutiny of teacher and student work and learning and how such processes are manifest in curriculum dominated by attention to literacy and numeracy, more scripted pedagogies and standardized testing. However, the research not only elaborates the detrimental effects of such processes but also how those responsible for educating in schools teachers, heads of curriculum, deputy principals and principals have responded proactively by interpreting, interrogating and challenging these conditions. In this way it provides resources for hope, evidence of what are described as more authentic accountabilities and at the same time it provides a clear portrait of the difficulty of fostering

substantive curriculum teaching and assessment reform during an era of increasingly reductive accountability processes It will be an invaluable resource for understanding and enhancing practices in schools and school systems in the decades to come and for giving hope to educators in the ongoing work of rebuilding trust in public education Revise in a Month Alan Horsfield,Horsfield & Jones,Allyn Jones,2009 Need a program that helps you organise your child's study time Need an easy to use method that motivates your child to revise for tests Then look no further we have the ideal study guide for your child
