

Have you ever listened about global warming? Global warming is becoming a more serious problem and has become a threat to our planet. So I will tell you how we can stop global warming.

Global warming is making our world a dangerous place and it is destroying the world. Global warming is caused by the greenhouse gases that are left by factories, cars, motorbikes etc. The air is polluted from factory emissions and car exhaust. Because of the greenhouse gases there is acid rain. Acid rain destroys lakes and rivers and affects the fish and wild-life. Due to global warming the ozone layer is depleting and the harmful ultraviolet rays are reaching the earth. This causes the glaciers and icebergs to melt.

First, we have work together to reduce, reuse and recycle to stop the causes of global warming. One of the things we could do is recycle more. Recycling is the process in which we could reuse things like cardboard, plastic bottles and plastic bags. For example we could use both sides of a piece of paper. Even more useful, would be to buy washable water bottles that can be reused. Finally we can buy goods with less packaging and we could carry cloth bags to carry our groceries and purchases instead of wasting plastic bags.

Next we need to find more different types of energy to use as another step to stop the effects of global warming. Using more solar, wind and hydroelectric power would reduce pollution and consumption of fossil fuels. Less gas and coal would be burned if people used alternate power sources. As well we can use public transport instead of driving alone in individual cars. If people prefer not to take the bus or train they could walk or ride a bike.

There are other ways to put global warming in check. One is to plant more trees and stop deforesting. More trees produce more oxygen which benefits the ozone layer. Another way is to switch off electrical equipment when not in use would stop the wastage of precious electricity.

When people think about the consequences and how to help to prevent global warming and take action we could stop global warming. This would make our world a wonderful place to live.
