Grade 1: Stories demonstrate themes or motifs that may be interpreted in multiple ways. Use this tool to help determine the main idea of a story, theme, or genre from multiple sources, including how characters in a story or drama respond to and interact with one another over the course of the story or drama; or how a person's actions and words in a poem reveal the speaker's thoughts, feelings, or attitudes.

## Who's Job Is It?

This is a little story about four people named **Everybody**, **Somebody**, **Anybody**, and **Nobody**.

There was an important job to be done and **Everybody** was sure that **Somebody** would do it. **Anybody** could have done it, but **Nobody** didn't. **Somebody** got angry about that because in fact **Everybody**'s job **Everybody** thought that **Anybody** could do it. **Nobody** realized that **Everybody** wouldn't do it. **Nobody** says that.

**Everybody** said: **Somebody** will do it. **Nobody** said: **Anybody** should have done it.

What is the theme of this story? Do either of the themes connect?

Use the [KWL Chart](#) to answer the questions. Please copy and paste your answers.

One possible answer:

**Anybody** is an unusual observer of what others [do in the world](#). The theme is revealed by what the characters fail to do. All the characters fail to take **anybody**'s basic conclusions: (1) that **Everybody** is angry; (2) **Everybody** thinks that **Anybody** should do it; (3) **Nobody** realized that **Everybody** wouldn't do it. This proves that **anybody** individuals fail to take responsibility for jobs, and assume others will do it, things do not get done.

**One Hundred Semesters** William M. Chace,2014 In One Hundred Semesters William Chace mixes incisive analysis with memoir to create an illuminating picture of the evolution of American higher education over the past half century Chace follows his own journey from undergraduate education at Haverford College to teaching at Stillman a traditionally African American college in Alabama in the 1960s to his days as a professor at Stanford and his appointment as president of two very different institutions Wesleyan University and Emory University Chace takes us with him through his decades in education his expulsion from college his boredom and confusion as a graduate student during the Free Speech movement at Berkeley and his involvement in three contentious cases at Stanford on tenure curriculum and academic freedom When readers follow Chace on his trip to jail after he joins Stillman students in a civil rights protest it is clear that the ideas he presents are born of experience not preached from an ivory tower The book brings the reader into both the classroom and the administrative office portraying the unique importance of the former and the peculiar rituals rewards and difficulties of the latter Although Chace sees much to lament about American higher education spiraling costs increased consumerism overly aggressive institutional self promotion and marketing the corruption of intercollegiate sports and the melancholy state of the humanities he finds more to praise He points in particular to its strength and vitality suggesting that this can be sustained if higher education remains true to its purpose providing a humane and necessary education inside the classroom and out for America's future generations
