African American Urban:

African American Urban History since World War II Kenneth L. Kusmer, Joe W. Trotter, 2009-08-01 Historians have devoted surprisingly little attention to African American urban history of the postwar period especially compared with earlier decades. Correcting this imbalance African American Urban History since World War II features an exciting mix of seasoned scholars and fresh new voices whose combined efforts provide the first comprehensive assessment of this important subject. The first of this volume's five groundbreaking sections focuses on black migration and Latino immigration examining tensions and alliances that emerged between African Americans and other groups. Exploring the challenges of residential segregation and deindustrialization later sections tackle such topics as the real estate industry's discriminatory practices the movement of middle class blacks to the suburbs and the influence of black urban activists on national employment and social welfare policies. Another group of contributors examines these themes through the lens of gender chronicling deindustrialization's disproportionate impact on women and women's leading roles in movements for social change. Concluding with a set of essays on black culture and consumption this volume fully realizes its goal of linking local transformations with the national and global processes that affect urban class and race relations

Encyclopedia of American Urban History David Goldfield, 2007 Publisher description **River Jordan** Joe William Trotter Jr., 2014-07-11 Since the nineteenth century the Ohio River has represented a great divide for African Americans. It provided a passage to freedom along the underground railroad and during the industrial age it was a boundary between the Jim Crow South and the urban North. The Ohio became known as the River Jordan symbolizing the path to the promised land. In the urban centers of Pittsburgh Cincinnati Louisville and Evansville blacks faced racial hostility from outside their immediate neighborhoods as well as class color and cultural fragmentation among themselves. Yet despite these

pressures African Americans were able to create vibrant new communities as former agricultural workers transformed themselves into a new urban working class Unlike most studies of black urban life Trotter's work considers several cities and compares their economic conditions demographic makeup and political and cultural conditions Beginning with the arrival of the first blacks in the Ohio Valley Trotter traces the development of African American urban centers through the civil rights movement and the developments of recent years African American Urban Experience Earl Lewis, Tera W. Hunter, 2004

The African American Urban Experience J. Trotter, E. Lewis, T. Hunter, 2004-03-17 From the early years of the African slave trade to America blacks have lived and laboured in urban environments Yet the transformation of rural blacks into a predominantly urban people is a relatively recent phenomenon only during World War One did African Americans move into cities in large numbers and only during World War Two did more blacks reside in cities than in the countryside By the early 1970s blacks had not only made the transition from rural to urban settings but were almost evenly distributed between the cities of the North and the West on the one hand and the South on the other In their quest for full citizenship rights economic democracy and release from an oppressive rural past black southerners turned to urban migration and employment in the nation's industrial sector as a new Promised Land or Flight from Egypt In order to illuminate these transformations in African American urban life this book brings together urban history contemporary social cultural and policy research and comparative perspectives on race ethnicity and nationality within and across national boundaries

The New African American Urban History, 1995 *Urban Planning and the African-American Community* June Manning Thomas, Marsha Ritzdorf, 1997 How have urban planning policies contributed to racial injustices in American cities Does contemporary urban planning really address and attempt to solve the social and economic problems of African Americans in cities or does it just perpetuate ghetto conditions What have African Americans done to confront injustices in planning Historically race and city design are linked and Urban Planning and the African American Community aims to clarify the historical connections between the African American population and the urban planning profession and to suggest means by which cooperation and justice may be increased The book focuses on the areas of zoning and real estate planning and public policy African American initiatives and responses to urban planning and urban planning education Individual chapters examine the racial origins of zoning in American cities how Eurocentric family models have shaped planning policies applied to African American families the rise of equity planning and its effects the role of race and empowerment in the Model Cities experiment African American experiences with shaping the planning of such cities as Los Angeles Greensboro and Birmingham and provides a plan for diversifying planning education in order to advance the profession The editors also include a chapter of excerpts from important court cases and government reports that have shaped or reflected the racial aspects of urban planning This important new volume bridges the gap between urban planning and issues of race and will be an essential resource for academics and students in urban studies urban planning and race ethnic studies

African American Environmental Thought Kimberly K. Smith,2007 Examines the works of Frederick Douglass Booker T Washington W E B Du Bois and several other canonical figures to uncover a rich and vital tradition of black environmental thought from the abolition movement through the Harlem Renaissance Provides the first careful linkage of the early conservation movement to black history the first detailed description of black agrarianism and the first analysis of scientific racism as an environmental theory *Revitalizing Urban Neighborhoods* William Dennis Keating,Norman Krumholz,Philip Star,1996 Since the 1950s and the advance of urban renewal local governments and urban policy have focused heavily on the central business district However such development has all but ignored the inner city neighborhoods that continue to struggle in the shadows of high rise America This analysis of urban neighborhoods in the United States from 1960 to 1995 presents fifteen essays by scholars of urban planning and development Together they show how urban neighborhoods can and must be preserved as economic cultural and political centers *Black City Cinema* Paula Massood,2003-01-22 In Black City Cinema Paula Massood shows how popular films reflected the massive social changes that resulted from the Great Migration of African Americans from the rural South to cities in the North West and Mid West during the first three decades of the twentieth century By the onset of the Depression the Black population had become primarily urban transforming individual lives as well as urban experience and culture Massood probes into the relationship of place and time showing how urban settings became an intrinsic element of African American film as Black people became more firmly rooted in urban spaces and more visible as historical and political subjects Illuminating the intersections of film history politics and urban discourse she considers the chief genres of African American and Hollywood narrative film the black cast musicals of the 1920s and the race films of the early sound era to blaxploitation and hood films as well as the work of Spike Lee toward the end of the century As it examines such a wide range of films over much of the twentieth century this book offers a unique map of Black representations in film **Impact of Poor Environments on African American Males and the Effects on Their Aspirations and Expectations** Tom S. Gaim,2006 *African-American Odyssey* Albert S. Broussard,1998 This book illuminates the professional career and private lives of J McCants Stewart a Reconstruction era lawyer minister politician and political activist and his descendants over three generations providing an epic account of an African American family in America Adapted from book jacket **African American Review** ,2006 *Black Migration and the American City* National

Museum of American History (U.S.), Spencer R. Crew, James Oliver Horton, 1988 The African American Years Gabriel Stepto, 2003 Discusses the history of African Americans from pre colonial times to the present Includes memoirs letters family histories newspapers oral histories and city directories providing historical evidence to help understand and interpret past events For high school and college students as well as general readers After the Glory Donald Robert Shaffer, 2004 Shaffer chronicles the postwar transition of black veterans from the Union army as well as their subsequent life patterns political involvement family and marital life experiences with social welfare comradeship with other veterans and memories of the war itself He draws on such sources as Civil War pension records to fashion a collective biography a social history of both ordinary and notable lives resurrecting the words and memories of many black veterans to provide an intimate view of their lives and struggles **BOOK JACKET** Power in the City Marion Orr, Valerie C. Johnson, 2008 A collection of thirteen essays considered classics in the field of urban politics from leading scholar Clarence Stone with new essays by the editors and by Stone himself that contextualize the impact of his previous works and suggest new directions for researchers

Reconstructing Times Square Alexander J. Reichl, 1999 When the big ball drops on New Year's Eve thousands are there to witness that great glittering sight while millions more watch on national television Times Square may be the cultural hub of America the Crossroads of the World but its lights have not always shone as brightly as they do now Once a glamorous theater district Times Square and 42nd Street had degenerated into a neighborhood known for the winos and sex shops of *Midnight Cowboy* until New York's business and arts communities stepped in These advocates of urban revitalization exploited cultural and historic preservation arguments to transform a low income entertainment district into a Disney fied tourist mecca Where Ratso Rizzo once kicked cars and hookers plied their trade Mickey Mouse now greets visitors from atop a Disney superstore surrounded by rising office towers theaters and theme restaurants all thanks to huge tax subsidies and government support Alexander Reichl tells the fascinating story of how cultural politics and economic greed transformed the city's physical and social environment with an ongoing multibillion dollar redevelopment program changing the district from a symbol of urban decline to one of urban renaissance He explains the political significance of the historic preservation and arts related approach to urban revitalization showing how it was used to appeal to the upscale values of middle class New Yorkers often hostile to urban renewal He also examines the role of the Walt Disney Company in the project and demonstrates its power to redefine a premier public space In telling the story of Times Square Reichl reveals much about politics and power at the city level and their relationship to the development of urban space He frames his lively narrative with an illuminating account of how historic preservation initiatives at all government levels have displaced large scale federal urban renewal programs as the dominant approach to urban development and he shows the importance of political discourse and cultural politics in mobilizing public support for urban redevelopment Now that it has been reconfigured for the 21st century Times Square provides a rich and multifaceted case for exploring the latest trends in urban renewal Yet

Reichl suggests much that has happened here is regrettable the ousting of low income citizens to serve commercial interests the loss of a culturally diverse entertainment district and the failure to address persistent class and race based segregation in a central urban area By getting to the heart of the Great White Way Reconstructing Times Square provides an important look at urban renewal and politics in a changing America
