The Biographical Turn Hans Renders, Binne de Haan, Jonne Harmsma, 2016-09-13 The Biographical Turn showcases the latest research through which the field of biography is being explored. Fifteen leading scholars in the field present the biographical perspective as a scholarly research methodology investigating the consequences of this bottom up approach and illuminating its value for different disciplines. While biography has been on the rise in academia since the 1980s this volume highlights the theoretical implications of the biographical turn that is changing the humanities. Chapters cover subjects such as gender, religion, race, new media and microhistory, presenting biography as a research methodology suited not only for historians but also for explorations in areas including literature, studies, sociology, economics and politics. By emphasizing agency, the use of primary sources and the critical analysis of context and historiography, this book demonstrates how biography can function as a scholarly methodology for a wide range of topics and fields of research. International in scope, The Biographical Turn emphasizes that the individual can have a lasting impact on the past and that lives that are now forgotten can be as important for the historical narrative as the biographies of kings and presidents. It is a valuable resource for all students of biography, history and historical theory.

Reconciliation, Forgiveness and Violence in Africa Marius J. Nel, Dion A. Forster, Christo H. Thesnaar, 2020-04-07 What might reconciliation and forgiveness mean in relation to various forms of personal, structural and historical violence across the African continent? This volume of essays seeks to engage these complex and contested ethical issues from three different disciplinary perspectives: Biblical Studies, Systematic Theology and Practical Theology. Each of the authors reflects on aspects of reconciliation, forgiveness and violence from within their respective African contexts. They do so by employing the tools and resources of their respective disciplines. The end result is a rich and textured set of interdisciplinary theological insights that will help the reader to navigate these issues with a greater measure of understanding and a broader perspective than what a single approach might offer. What is particularly encouraging is that the chapters represent research from established scholars in their fields, recent PhD graduates and current PhD students. This is the first book to be published under the auspices of the Unit for Reconciliation and Justice in the Beyers Naudé Centre for Public Theology.

Old Age in Ancient Judaism, Early Christianity, and Their Contexts Albertina Oegema, Seth A. Bledsoe, 2025-08-08 The collection of chapters in this volume explores the significance of old age for Jews and Christians as well as Greeks and Romans in antiquity. By examining a diverse range of sources, the authors in this volume elaborate on the manifold ways that old age functioned as a social discourse in ancient Jewish, Christian, Greek and Roman contexts. The discussions herein demonstrate how perceptions of old age were closely intertwined with notions of authority and wisdom, gender and social dynamics, social and familial anxieties, and the body and disability. They show that conceptualizations of old age are far more prevalent and significant to ancient social and political structures, rhetorical discourse and religious imagination than one might expect. By including studies on old age in different religious and cultural

contexts the volume highlights the commonalities as well as the many differences that existed among various communities in antiquity This volume is of interest for students and scholars of religion particularly for those working on Jews Christians Greeks and Romans in the ancient Mediterranean as well as scholars in classical studies and ancient history It is also a valuable resource for gerontologists who wish to explore the historical background of present day notions of old age

Fuzzy boundaries: Ambiguity in speech production and comprehension Christopher Carignan, Georgia Zellou, Eleanor Chodroff, Joseph V. Casillas, 2023-04-20 *A Century of South African Theatre* Loren Kruger, 2020 Theatre is not part of our vocabulary Sipho Sepamla's provocation in 1981 the year of famous anti apartheid play Woza Albert prompts the response yes indeed it is A Century of South African Theatre demonstrates the impact of theatre and other performances pageants concerts sketches workshops and performance art over the last hundred years Its coverage includes African responses to pro British pageants celebrating white Union in 1910 such as the Emancipation Centenary of the abolition of British colonial slavery in 1934 organized by Griffiths Motsieloa and HIE Dhlomo through anti apartheid testimonial theatre by Athol Fugard Maishe Maponya Gcina Mhlophe and many others right up to the present dramatization of state capture inequality and state violence in today's unevenly democratic society where government has promised much but delivered little Building on Loren Kruger's personal observations of forty years as well as her published research A Century of South African Theatre provides theoretical coordinates from institution to public sphere to syncretism in performance in order to highlight South Africa's changing engagement with the world from the days of Empire through the apartheid era to the multi lateral and multi lingual networks of the 21st century The final chapters use the Constitution's injunction to improve wellbeing as a prompt to examine the dramaturgy of new problems especially AIDS and domestic violence as well as the better known performances in and around the Truth and Reconciliation Commission Kruger critically evaluates internationally known theatre makers including the signature collaborations between animator designer William Kentridge and Handspring Puppet Company and highlights the local and transnational impact of major post apartheid companies such as Magnet Theatre *Memorization and the Compound-Phrase Distinction* Marcel Schlechtweg, 2018-01-09 Over the last decades it has been hotly debated whether and how compounds i.e. word formations and phrases differ from each other The book discusses this issue by investigating compounds and phrases from a structural semantic functional and crucially cognitive perspective The analysis focuses on compounds and phrases that are composed of either an adjective and a noun or two nouns in German French and English Having distinguished compounds from phrases on structural and semantic functional grounds the author claims that compounds are by their nature more appropriate to be stored in the mental lexicon than phrases and supports his argument with empirical evidence from new psycholinguistic studies In sum the book maintains the separation between compounds and phrases and reflects upon its cognitive consequences **Afrikaans +: Everything you need to obtain top marks** Marieta Nel, 2019-02-01 Afrikaans is a learner friendly guidebook which caters for additional language learners who want to achieve
