Department of Bibliography,1978 **The 7 Most Important Equations for Your Retirement** Moshe A. Milevsky,2012-05-10 The 800 years of scientific breakthroughs that will help salvage your retirement plans Physics Chemistry Astronomy Biology every field has its intellectual giants who made breakthrough discoveries that changed the course of history What about the topic of retirement planning Is it a science Or is retirement income planning just a collection of rules of thumb financial products and sales pitches In The 7 Most Important Equations for Your Retirement And the Stories Behind Them Moshe Milevsky argues that twenty first century retirement income planning is indeed a science and has its foundations in the work of great sages who made conceptual and controversial breakthroughs over the last eight centuries In the book Milevsky highlights the work of seven scholars summarized by seven equations who shaped all modern

retirement calculations He tells the stories of Leonardo Fibonnaci the Italian businessman Benjamin Gompertz the gentleman actuary Edmund Halley the astronomer Irving Fisher the stock jock Paul Samuelson the economic guru Solomon Heubner the insurance and marketing visionary and Andrey Kolmogorov the Russian mathematical genius all giants in their respective fields who collectively laid the foundations for modern retirement income planning With baby boomers starting to hit retirement age planning for retirement income has become a hot topic across the country Author Moshe Milevsky is an internationally respected financial expert with the knowledge you need to assess whether you are ready to retire or not Presents an entertaining informative narrative approach to financial planning Understanding the ideas behind these seven foundation equations which Moshe Milevsky explains in a manner that everyone can appreciate will help baby boomers better prepare for retirement This is a book unlike anything you have ever read on retirement planning Think Suze Orman meets Stephen Hawking If you ever wondered what the point of all that high school mathematics was Moshe Milevsky s answer is So that you can figure out how to retire while you can still enjoy your money **The Publishers Weekly** ,1965
