## CHAPTER 6 FINANCIAL STATEMENTS AND THE CLOSING PROCESS

### REVIEW QUESTIONS

1. The information needed to prepare the income statement is found in the Income Statement columns of the work sheet. Revenue is shown first, followed by an itemized and totaled list of expenses. Net income may be calculated or copied from the Income Statement columns of the work sheet.
2. Two approaches to listing the expenses in the income statement are:
  - a. the expenses could be listed in the same order that they appear in the chart of accounts.
  - b. the expenses could be listed in descending order, by dollar amount.
3. The Balance Sheet columns of the work sheet provide most of the information needed to prepare a statement of owner's equity. The capital account balance and the drawing account balance are in the Balance Sheet columns of the work sheet. The net income for the year can be found either on the work sheet at the bottom of the Balance Sheet columns or on the income statement. Additional investments must be identified in the owner's capital account.
4. If additional investments are made during the year, the owner's capital account in the general ledger must be reviewed. The owner's capital account in the general ledger contains the beginning balance. The additional investments will also be shown in the owner's capital account in the general ledger.
5. The work sheet and the statement of owner's equity are used to prepare the balance sheet. The asset and liability amounts can be found in the Balance Sheet columns of the work sheet. The ending balance for the owner's capital has been computed on the statement of owner's equity. This amount should be copied from the statement of owner's equity to the balance sheet.
