

The following policy template is for example purposes only. It contains the policy mandates that would be typical for a smaller merchant that has only point-of-sale (POS) terminals. Merchants who use this template should make modifications reflective of their specific operational environments. Merchants who have more sophisticated systems (for example: servers, printers, local area networks, etc.) will need to add additional policy mandates to ensure a comprehensive policy.

Special Ops: Host and Network Security for Microsoft Unix and Oracle

Syngress, 2003-03-11 Special Ops Internal Network Security Guide is the solution for the impossible 24 hour IT work day.
