**The Secret Science of Masonic Initiation** Robert Lomas, 2009-06

The Secret Science of Masonic Initiation is different and revelatory This book will take you on an imaginative journey deep into that inner part of your consciousness that Freemasonry calls your soul Not since the glory days of Wilmshurst Ward and Waite has any serious Masonic writer attempted to look at the meaning of Masonry in such knowledgeable depth Its ritual says it is a high and serious subject But how can an individual discover the truths it outlines How do you become an Initiate and a Master A new spiritually aware generation is asking this question and demanding answers Using words and images this book leads you through the spiritual stages of Masonic knowledge The Craft teaches that each new apprentice shall find a teacher to gain instruction The open Lodge is not the place for instruction but a place for living out truths that should be taught privately by contemplation of symbols

**The Alchemical Keys to Masonic Ritual**

Timothy Hogan, 2007-12-01 This is the first book which establishes a direct link between the rituals of Freemasonry and the practice of both chemical and spiritual alchemy Albert Pike understood that the symbolic degrees of Freemasonry contained alchemical secrets but he never put the whole pattern together and showed how This book shows these connections for the

E. Abbott,1963    *33 Keys to Unlocking The Lost Symbol* Thomas R. Beyer,2009-12-08 Ever since Professor Beyer read The Da Vinci Code he became intrigued by Dan Brown's use of facts in fiction. He realized that an examination of the novel could be a tantalizing and entertaining entry into the world of research and evaluating information and decided to make it the subject of his freshman seminar class at Middlebury College. Beyer and many of his students have followed Dan Brown's work ever since and four years ago Beyer began to anticipate and delve into the facts that would be the core of *The Lost Symbol*. Like millions of other expectant readers he purchased a copy of the novel on its publication date September 15 2009. He read and analyzed it several times and at the urging of his publisher focused on writing this handy reader friendly companion guide to *The Lost Symbol* in which he elaborates on 33 key topics and identifies 133 Internet links for even further exploration. The topics organized by theme in seven sections follow the plot of the story and cover the setting in Washington D C art and architecture, cryptology, Freemasonry, secret teachings, science and people and places in the novel highlighted with 33 helpful illustrations.

*A Special Collection of Interesting Books Relating to the Occult Sciences and Kindred Subjects* ... Marks & Co,1948    [Freemasonry For Beginners](#) Robert Lomas,2017-01-31 Many people have heard of Freemasonry but few have any idea what it is, what it does or why it exists. Freemasonry is not a religion but rather a spiritual self help society whose declared purpose is to help members become better citizens and it has a strong track record of doing just that since it began in Scotland in the 15th century. *Freemasonry For Beginners* explores the objectives and teaching methods of Freemasonry and describes its influence on society in the past, present and future. It recounts the origins of the movement in Scotland and its spread to North America and the rest of the world. Not least of all it shows how Masonic teachings have helped so many members over the centuries learn the skills to become leaders in society, science and the arts.
