This edition continues the end-of-chapter Student Workshop activities to cater to the many different learning styles and to engage users in the practical aspect of the material discussed in the chapter. WileyPLUS sold separately from text.      *Visualizing Everyday Chemistry* Douglas P. Heller, Carl H. Snyder, 2015-01-20 *Visualizing Everyday Chemistry* Binder Ready Version is for a one-semester course dedicated to introducing chemistry to non-science students. It shows what chemistry is and what it does by integrating words with powerful and compelling visuals and learning aids. With this approach, students not only learn the basic principles of chemistry but see how chemistry impacts their lives and society. The goal of *Visualizing Everyday Chemistry* Binder Ready Version is to show students that chemistry is important and relevant not because we say it is but because they see it is. This text is an unbound binder-ready version.      *Chemistry* Neil D. Jespersen, Alison Hyslop, 2021-11-02 *Chemistry: The Molecular Nature of Matter* 8th Edition continues to focus on the intimate relationship that exists between structure at the atomic/molecular level and the observable macroscopic properties of matter. Key revisions in this edition focus on three areas: The deliberate inclusion of more updated real-world examples that relate common real-world student experiences to the science of chemistry; Simultaneously, examples and questions have been updated to align them with career concepts relevant to the environmental, engineering, biological, pharmaceutical, and medical sciences; Providing students with transferable skills with a focus on integrating metacognition and three-dimensional learning into the text. When students know what they know, they are better able to learn and incorporate the material. Providing a total solution through New WileyPLUS by fully integrating the enhanced eText with online assessment, answer-specific responses, and additional practice resources. The 8th edition continues to emphasize the importance of applying concepts to problem-solving to achieve high-level learning and increase retention of chemistry knowledge.
