Multilingual Neuropoetry Dr Jayanthiny Kangatharan, 2019-02-06 This book is the first to help you tap into the connection between art and science and specifically recognise how neuroscience and poetry can join hands to give rise to the idea of neuropoetry. The literary creation of neuroart uses poetry to look at concrete examples of human experience through a neuroscientific lens. This attempt to meaningfully express neuroscientific phenomena creatively in different languages is *Multilingual Neuropoetry*. The debut anthology by Dr Jayanthiny Kangatharan provides you with extensive notes and explanations to help you understand with examples how you can create your own neuropoems. This book where art meets science therefore is for everyone the poet and the non poet the scientist and the non scientist. It is for you **Young**
