² Figures above were developed to follow the various journeys of life and measure along the dimension of life. These figures "should not be regarded as static entities but as the best fit."

• **Business Environment:** In which the business environment is about the environment where the business is operating. It includes the political, economic, social, technological, legal, and cultural factors that affect the business.

Background and objectives. The present study aims to evaluate the effectiveness of a low-intensity exercise programme on the physical performance of patients with chronic heart failure.

This application is being used to support the Project Baseline, managing the current project and continuing the work started by the previous project. This project will now be known as the 'New Baseline'.

REVIEWERS' COMMENTS: The author makes a few minor changes about the text, and the editor has a few points they explain in the responses. The responses themselves are very similar to the author's points, so I will not repeat them here.

The following sections explore how institutions like universities influence these two metrics. We consider how the different types of research universities manage gender diversity, and how female students contribute to and benefit from the institution.

These findings should be replicated in other studies, because it is important to note that the results of the present study are consistent with those of previous studies that have demonstrated the effectiveness of the intervention.

Such a situation is not unique to the U.S. Other countries like Thailand, Argentina, and Venezuela are experiencing a similar situation.

For analysis of the above data, we used a two-way analysis of variance.
