## **The Serial Thrillers 2012 - 12**

**spine-tingling tasters** Tess Gerritsen, Lee Child, 2012-07-19 A taste of terror Sample 12 of the most electrifying spine tingling books of 2012 from some of the best authors on the scene. Lock your doors. Check behind the sofa. And prepare to be thrilled. Get a taste of 12 of the most terrifying stomach churning crime and thriller books of 2012 from some of the best authors on the scene. The Affair by Lee Child. The Silent Girl by Tess Gerritsen. Dead Centre by Andy McNab. Finders Keepers by Belinda Bauer. Now You See Me by S J Bolton. Dead To Me by Cath Staincliffe. The Summer of Dead Toys by Antonio Hill. Vanished by Liza Marklund. Bryant and May and The Invisible Code by Christopher Fowler. Another Time Another Life by Leif Persson. The Two Deaths of Daniel Hayes by Marcus Sakey. The Quarry by Johan Theorin. Killer thrillers examine the evidence.

**Flying**, 1997    [The Two Deaths of Daniel Hayes](#) Marcus Sakey, 2012-07-05 It starts with you waking on a Maine beach naked half drowned and very very cold. Your name is Daniel Hayes. At least you think it is. That's the name on the insurance card you find in the BMW parked near you. How did you get here? And why? All you remember is a woman's face. So you set off to the only place you might find her. But this raises the most chilling question of all: what will you find when you get there? From Lee Child. Like any reader I love old favourites but I love new voices too and I especially love it when a new voice starts to become an old favourite. It doesn't happen often but right now it's happening with Marcus Sakey. He's got it all: he writes like a dream, he creates characters exactly like people you know, he scares you and above all keeps you turning the pages. But most of all he does the what if thing better than anyone in the business. What if questions power a lot of plots but Sakey is special. He doesn't just check a box or construct a neat twist for the sake of it. Reading him between the lines I guarantee he lives this stuff he thinks it through and sweats it out probably for weeks at a time. I can see him looking around at all the things he loves, looking at his house, turning and looking at his wife, asking himself: What if? What if I had to put all this at risk? Would I? Could I? How would it feel? What would be the effect on me? It's that kind of depth and intelligence and passion and emotion that sets Sakey apart. These are not just clever plots. These are real people with night sweats and wide eyes and everything to lose. *The Two Deaths of Daniel Hayes* takes what if in a new direction and to new heights. Every writer muses: What if the reader isn't sure whether the husband killed his wife or not? That's a basic whodunit. But Sakey asks: What if the husband isn't sure whether he killed his wife or not? That's a terrific premise and it boosts an already terrific thriller plot into
