

## ACOG Screening Guidelines

Age	Recommended screening	Comment
Less than 21	No screening	
Age 21-29	Pap smear alone every 3 years	
Age 30-65	Pap smear and HPV co-testing every 5 years or pap smear alone every 3 years.	Screening by HPV testing alone is not recommended
Age 65 and older	No screening after adequate negative prior screening results	Women with a history of High grade pap smear should continue age based screening for at least 20 years
Women who have had hysterectomy	No screening necessary	Applies to women without a cervix and without a history of High grade pap smear or cancer in the past 20 years
Women vaccinated against HPV	Same as vaccinated

Markovic,2016-12-19 This book an updated and extended edition is about mobilizing women and health care policy makers and providers to unite their efforts in a single strategy for fighting cervical cancer worldwide The objective of this strategy

would be to reverse cervical cancer prevalence and mortality rates among all 2.4 billion women at risk and to achieve this goal within 10-15 years of implementation. Cervical Cancer Screening Pap test VIA VILI or HPV failed to stop cervical cancer worldwide simply because many countries could not afford developing infrastructure necessary to carry on the global strategy and because the outreach could not accomplish the targeted 51% of the population at risk. In 2015 there is still 600 000 women getting cervical cancer annually and 300 000 of them die. Every minute one woman gets cervical cancer and every 2 minutes one woman dies from this preventable disease. In 21st Century the Information Technology IT Revolution has made substantial impact on medicine enabling remote points of care scattered around the world to be e connected with experts in distant medical centers and to obtain quality diagnosis and proper guidelines for curative therapy of early stages of cervical cancer. Low frequency of costly interventions needed makes IT based screening financially and socially beneficial for mass screening. This new Mobile Health technology with the Global Strategy for Fighting Cervical Cancer is subject to elaboration in our book as the new hope when old efforts have failed to stop the world epidemics of this grave but preventable disease. The language is adapted for easy reading and understanding by professionals and lay persons. This book is intended for women at risk for cervical cancer, their health care providers, health insurance companies, government responsible for making health policy and healthcare industry because all of them have special role in the new Global Strategy elaborated in details in this book.

**Adult-Gerontology Practice Guidelines** Jill C. Cash, Cheryl A. Glass, 2015-06-26 Print CourseSmart

**Burns' Pediatric Primary Care E-Book** Dawn Lee Garzon, Nancy Barber Starr, Margaret A. Brady, Nan M. Gaylord, Martha Driessnack, Karen G. Duderstadt, 2019-11-13

Get a comprehensive foundation in children's primary care. Burns' Pediatric Primary Care 7th Edition covers the full spectrum of health conditions seen in primary care pediatrics emphasizing both prevention and management. This in-depth evidence-based textbook is the only one on the market written from the unique perspective of the Nurse Practitioner. It easily guides you through assessing, managing and preventing health problems in children from infancy through adolescence. Key topics include developmental theory, issues of daily living, the health status of children today and diversity and cultural considerations. Updated content throughout reflects the latest research, evidence, national and international protocols and standardized guidelines. Additionally, this 7th edition has been reorganized to better reflect contemporary clinical practice and includes nine new chapters, revised units on health promotion, health protection, disease management and much, much more. Four-part organization includes: 1. an introductory unit on the foundations of global pediatric health, child and family health assessment and cultural perspectives for pediatric primary care; 2. a unit on managing child development; 3. a unit on health promotion and management; and 4. a unit on disease management. UNIQUE Reorganized Unit: Health Supervision. Health Promotion and Health Protection includes health promotion and health protection for developmentally normal pediatric problems of daily living and provides the foundations for health problem management. UNIQUE Reorganized Unit: Common Childhood Diseases. Disorders has been expanded to

sharpen the focus on management of diseases and disorders in children Comprehensive content provides a complete foundation in the primary care of children from the unique perspective of the Nurse Practitioner and covers the full spectrum of health conditions seen in the primary care of children emphasizing both prevention and management In depth guidance on assessing and managing pediatric health problems covers patients from infancy through adolescence UNIQUE Practice Alerts highlight situations that may require urgent action consultation or referral for additional treatment outside the primary care setting Content devoted to issues of daily living covers issues that are a part of every child s growth such as nutrition and toilet training that could lead to health problems unless appropriate education and guidance are given Algorithms are used throughout the book to provide a concise overview of the evaluation and management of common disorders Resources for providers and families are also included throughout the text for further information Expert editor team is well versed in the scope of practice and knowledge base of Pediatric Nurse Practitioners PNPs and Family Nurse Practitioners FNPs
