A homiletical commentary on the Books of Kings rev. George Barlow,1885 *Addressing South Africa's Moral Crisis* Nico Vorster,2025-08-22 This book attempts to understand and address the psycho social dynamics behind South Africa s moral crisis It describes South Africa as afflicted by state capture violence corruption and the looting of state infrastructure thirty years after the establishment of democracy It then provides a holistic social diagnosis of this problem that integrates the findings of different disciplines into an overall picture of the forces at work in South Africa s collective moral decline Ultimately this book engages with the deeper psycho social phenomena behind South Africa s moral decline arguing that the diagnostic question of why this moral decline has taken place must be answered before turning to the normative question of what ought to happen in this situation Accordingly this book explores themes regarding the innate moral capacities of the human person the effects of need pressures and systemic pressures on ethical decision making and the phenomena of distorted motivational drives and distorted behavioral responses It shows how the framing of virtue centered moral identities might act as buffers against moral disengagement strategies and assist in promoting pro social behavior It then specifies the macro social changes required to create such an ethical social climate The book is of interest to social scientists ethicists behavioral scientists educators theologians and moral philosophers In the end this case study of South Africa shows us more broadly how maintaining public morality and social cohesion is a challenge that most modern societies face
