## **Germany Since Unification:**

**Representing East Germany Since Unification** Paul Cooke, 2005-08 Cooke maps out the problematic path of German national identity as it struggles to deal with the legacy of division. Drawing on postcolonial theory he argues that the East has been defined as the West's exotic other and shows how this stereotype has been vigorously challenged. **Germany since Unification** K. Larres, 2001-02-13 A decade after the fall of the Berlin Wall the collapse of the GDR and the end of the Cold War Germany has begun to cope with the political economic social and nationalistic challenges unification has posed to its institutions and way of life in both the western and eastern part of the once divided nation. The book's eleven authors all experts in their field analyse the way united Germany has tackled the many unforeseen problems and highlighted the gradually emerging short and long term patterns in Germany's slow adjustment to the new realities. The country has not only become more populous and territorially bigger but also burdened with much underestimated problems particularly economic and social ones. The emergence of a new economic political and perhaps military superstate as feared by many in 1990 has not materialised. Instead Germany today is only just coping with the domestic and external challenges of unification. The economic and social integration of the former East Germany into the Federal Republic has still not been completed and may take yet another ten to fifteen years. The book is a timely and well researched effort by a team of outstanding experts to evaluate Germany's performance to date. It gives the reader ample and well analysed information to comprehend the many challenges facing Germany and its European neighbours in the post Cold War world. **Germany since Unification** Klaus Larres, 2016-07-27 Almost a decade after the opening of the Berlin Wall the collapse of the GDR and the end of the Cold War Germany has begun to cope with the political economic social and nationalistic challenges unification has posed to its institutions and way of life in both the western and eastern part of the once divided country. The book's nine authors all experts in their field analyse the way united Germany has tackled the many unforeseen problems and highlight Germany's slow adjustment to the new realities. The emergence of a new economic political and perhaps military superstate as feared by many in 1990 has not materialised. Instead Germany today is only just coping with the domestic and external challenges of unification. The economic and social integration of the former East Germany may yet take another 10 to 15 years. This timely and well researched book outlines the many challenges facing Germany and its European neighbours in the post Cold War world. **German Foreign Policy Since Unification** Volker Rittberger, 2001 This book examines the extent to which German foreign policy has changed since unification and analyzes the fundamental reasons behind this change. The book has three main aims. The essays develop theories of foreign policy to predict and explain Germany's foreign policy behavior. They test competing predictions about German foreign policy behavior since unification in several issue areas. They also assess the much debated question as to whether post unification Germany's foreign policy is marked by continuity or change. *The Federal Republic of Germany since 1949* Klaus Larres, Panikos Panayi, 2014-08-27 Today the problems of reunification seem

to feature more often in the international spotlight than the benefits This timely volume offers a reassessment of Germany's postwar development from its inception through to reunification including a thorough examination of the implications for economic political and social policies The impressive team of contributors include leading names in the history of modern Germany together with some of the ablest younger scholars in the field They are Hartmut Berghoff David Childs Immanuel Geiss Graham Hallett Klaus Larres Terry McNeill Torsten Opelland Richard Overy Stephen Padgett Panikos Panayi and Mathias Siekmeier

**Education in Germany since Unification** David Phillips, 2000-01-01 This volume is concerned with aspects of education in Germany over the 10 years prior to 2000 focusing on schools teachers vocational training and higher education in those eastern parts of the Federal Republic which formerly constituted the territory of the German Democratic Republic The articles deal with notions of transition and adaptation at a time of considerable upheaval and rapid change There is a particular focus in some contributions on the problems involved in conducting research on the views of teachers involved in complex processes of adjustment to a new status quo

**The New Germany in the East** Christopher Flockton, Eva Kolinsky, Rosalind M. O. Pritchard, 2000 This work considers the problems of the socialist legacy left by the unification of Germany as East Germans adjusted to uncertainties in employment education family life and immigration

**The Unification and Reunification of Germany** Jackie F. Stanmyre, 2018-07-15 The geography of Germany and the way it has been governed have changed many times since the 1800s This book explores Otto von Bismarck's role in the formation of the modern German state the partition of Germany following World War II and the events surrounding the decline of European communism including the fall of the Berlin Wall in 1989 and the reunification of East and West Germany in 1990 With photographs maps sidebars and fast facts readers will evaluate the country's numerous border changes and the massive impact they have had on the people who live there

*Germany from Partition to Reunification* Henry Ashby Turner, 1992-01-01 A revised edition of *The Two Germanies since 1945* which discussed the partitioning of Germany after World War II and the formation of the two states This revised text covers unification the exodus of East Germans to the Federal Republic breaching of the Berlin Wall and overthrow of communism

*The New Germany* John Richard Philip McKenzie, Derek Lewis, 1995 A comprehensive picture of Germany since reunification The work covers the fall of East Germany from the 1989 revolution the new political structures Germany's role as a European power the problems generated by the Western take over of the former GDR and culture and the arts

Beyond the Wall Elizabeth Pond, 2010-12-01 *Beyond the Wall* is the first book in either English or German to tell the whole story of the extraordinary revolution that demolished the Berlin Wall ended the Cold war and tore apart the Soviet regime Elizabeth Pond former Moscow and European correspondent for the *Christian Science Monitor* was an eyewitness to the dramatic events of 1989-92 and to the fifteen years of relations between Germany and Eastern Europe leading up to them Pond weaves together in riveting prose the strands of events that are usually recounted separately Rather than looking just at the East German revolt or the process of unification

that created a new nation she traces the interaction of these events and their diplomatic consequences for Europe Pond shows the political economic and social forces at work leading up to the unification during the transition process and in the aftermath Looking at the European framework she explains how significantly the European Community and its move toward integration both affected and were affected by German unification The book contains a wealth of new information from hundreds of interviews with top German and American policymakers East German Politburo members and average German citizens It also incorporates up to date research on such topics as the Stasi secret police and the midlife crisis of the German left Pond concludes with an assessment of the roles of the United States and a unified Germany in the new Europe Calling for a continued partnership between the United States and Germany who have come through a common baptism of fire since the fall of the Berlin Wall Pond casts an optimistic eye toward the future      Ten Years of German Unification Jörn Leonhard, Lothar Funk, 2002-04-30 In May 2000 scholars of history law politics and economics gathered in London to compare their various methodological and empirical perspectives on the 1989 90 collapse of the Germanies into a unity and the aftermath of the event from the perspective of a decade on Their 14 studies cover histo      Economic Aspects of German Unification Paul J.J. Welfens, 2012-12-06 Paul J J Welfens The editor is pleased to present a second edition of Economic Aspects of German Unification which includes new chapters and several postscripts Almost five years after unification output in the ex GDR is back to its 1989 level Due to a massive intra German resource transfer consumption per capita in eastern Germany has not fallen as much as output and employment which reduced by one fifth within three years Given high West German transfers which represented about 5% of West German GDP and more than 50% of East German GDP the fall of industrial output could have been much stronger than had politically been feasible Hence structural change necessary for productivity growth was dramatic in the ex GDR where the goods producing sector manufacturing mining energy and construction strongly changed its proportions within four years construction almost doubled and the share of investment goods production reduced by 10 percentage points between 1990 and 1994 and is now down to 21.1 % Mining lost two thirds of its share in the producing sector which itself was reduced relative to GDP The share of the services industry increased by 5 percentage points between 1991 and 1994 but with a share of 27.7% in East Germany's GDP it was still about 9 percentage points lower than in western Germany By contrast government accounted for 20.9% of GDP in eastern Germany but for only 13.2% in western Germany      *Rereading German History (Routledge Revivals)* Richard J. Evans, 2015-06-05 In *Rereading German History* first published in 1997 Richard J Evans draws together his seminal review essays on the political economic cultural and social history of Germany through war and reunification This book provides a study of how and why historians mainly German American British and French have provided a series of differing and often conflicting readings of the German past It also presents a reconsideration of German history in the light of the recent decline of the German Democratic Republic collapse of the Berlin Wall and the reunification of Germany *Rereading German History* re examines major

controversies in modern German history such as the debate over Germany's special path to modernity in the nineteenth and twentieth centuries and the discussions in the 1980s on the uniqueness or otherwise of Auschwitz. Evans also analyses the arguments over the nature of German national identity. The book offers trenchant and important analytical insights into the history of Germany in the last two centuries and is ideal reading material for students of modern history and German studies.

**The Unification of German Education** Val Dean Rust, Diane Rust, 1995. This study of the integration of East and West German education following the collapse of the German Democratic Republic in 1989 focuses on policy formation and implementation during this period of great social and political turbulence. It is the result of a research project undertaken shortly after the unification. The authors lived in East Germany for a full year looking carefully at individual schools, vocational training centers, teacher colleges, and universities. They asked macro-analytic questions: What are the conditions in which educational policy is successfully formulated? How is this educational policy implemented? What are the consequences of this policy? From the start, West Germany demanded a complete dismantling of the educational system in the former German Democratic Republic. West German political leaders insisted as a condition of unification that all important agreements concerning education made by the GDR states be accepted by the new states. The authors' research shows that even before the unification, East Germans had already opted for a system consistent with West German education law. However, the West Germans disregarded these changes and imposed their own version of reform on East Germany. The study reveals that in this period of confusion, the East Germans did not fully analyze the implications of the imposed conditions, which now have unforeseen negative consequences. The German situation is of great interest to all educators, particularly students of educational policy making, as well as researchers in political science, economics, and sociology.

**Reinventing Gender** Eva Kolinsky, Hildegard Maria Nickel, 2003. Since the unification of the DDR and the GDR, women living in the former East Germany have lost many of the advantages that came with a planned economy. This collection of essays examines the reinvented meaning of gender and the experience of East German women since unification.

*The Unification of Germany in International and Domestic Law* Ryszard W. Piotrowicz, 2023-12-18. The book analyses the most important international and domestic legal aspects of German unification. Part One, Chapter one, five contains a general introduction, then deals with international issues: the status of Germany from 1945 to the present day, the German borders are examined, then issues of state succession and self-determination are discussed in the context of unification. Part Two, Chapters six, nine deals with domestic matters: property issues in the former East Germany, feminism after unification (dealing principally with the abortion issue), the prosecution of former East German citizens for offences relating to the security of East Germany, and the reform of the asylum law. The aim is to give the reader an overview of the most controversial and problematic issues of German unification.

Antisemitism and Xenophobia in Germany After Unification Hermann Kurthen, Werner Bergmann, Rainer Erb, 1997. Since unification, Germany has undergone profound changes, including the reawakening of xenophobic hate crime.

anti-Semitic incidents and racist violence This book presents the findings on German public opinion private attitudes official policies and right wing political developments      Germany After Unification Gert-Joachim Glaessner, 2023-11-27 German Monitor founded in 1979 is a series of themed edited volumes on literature culture and politics in the German speaking world since 1945 Our approach is inclusive some volumes focus on single authors political figures or genres other volumes explore themes such as narratives of trauma German left wing terrorism local global narratives and the roles that Germany Austria and Switzerland play in Europe today We welcome proposals for interdisciplinary volumes as well as those with a specifically literary cultural or political focus Many of our contributors are based in German Studies others in disciplines such as Comparative Literature Film Studies Musicology History Museum Studies and Political Science The book series has a system of double peer reviewing We publish volumes in German or English Authors are cordially invited to submit proposals to the publisher at BRILL Christa Stevens Questions about your manuscript and proposals can also be directed to the Editor in Chief Laura Bradley      **New Europe, New Germany, Old Foreign Policy?** Douglas Webber, 2001 The contributions to this volume analyze how and the extent to which German foreign and European policy has changed since German unification

## Whispering the Strategies of Language: An Psychological Journey through **Germany Since Unification**

In a digitally-driven earth where displays reign supreme and immediate connection drowns out the subtleties of language, the profound strategies and psychological nuances concealed within words usually move unheard. However, nestled within the pages of **Germany Since Unification** a charming fictional value blinking with natural emotions, lies a fantastic quest waiting to be undertaken. Penned by an experienced wordsmith, that wonderful opus encourages visitors on an introspective trip, delicately unraveling the veiled truths and profound impact resonating within the very fabric of each word. Within the mental depths of this poignant evaluation, we can embark upon a sincere exploration of the book is primary styles, dissect its fascinating writing model, and fail to the effective resonance it evokes strong within the recesses of readers hearts.
