CINDERELLA STORY

The poster features a group of six young adults against a soft-focus background. In the foreground, a young man with short brown hair and a red t-shirt is smiling broadly. To his left, a young woman with long dark hair and a tiara is looking towards the camera. Behind them, four other young women are partially visible, each with a different hairstyle and expression. The overall aesthetic is reminiscent of a 2000s teen romantic drama.

Welsh, 2010-02-23 Since films were first produced adapted works have predominantly borrowed primarily from traditional texts such as novels and plays Likewise the study of film adaptations has also been fairly traditional rarely venturing beyond a comparison of the source material to its often less revered counterpart Redefining Adaptation Studies breaks new ground in showing the range of possibilities that transcend the literature film paradigm These essays focus on the idea of adaptation and what it means in different socio political contexts Above all this collection shows how cultural and political factors determine the meaning of the term and its potential for developing new approaches to learning The contributors to this volume look at adaptation in different contexts and develop new ways to approach adaptation not just as a literature through film issue but as something which can be used to develop other skills such as creative writing and personal and social skills Aimed at teachers in high schools and universities at the under and postgraduate levels this volume not only suggests how adaptation might be used in different disciplines but how it might improve the learning experience for teachers and students alike
