

# Algebraic Expressions

An **algebraic expression** is a single term or a set of terms that are combined using addition (+), subtraction (-), multiplication (x) and division (÷)

## Examples

$$3x$$

$$2x + 3y$$

$$2 - 5y^2$$

$$2x + 3y - 5$$

An expression that contains two terms is called a binomial.

Lima,1987 Road user costs are the largest cost elements in road transport Improvements in road conditions can yet pay  
substantial dividends by reducing vehicle operating costs Expressing vehicle operating costs in relation to road  
characteristics geometry and pavement condition is the logical approach For certain cost components especially fuel  
consumption the required data can be obtained by controlled experiments Vehicle maintenance costs utilizing extensive road  
user surveys are needed This volume takes an aggregate mechanistic view of vehicle speed and operating costs under free  
flow conditions Basing their analysis on the mechanistic principles of propulsion and motion as well as on postulated  
assumptions of driver behavior the authors arrive at predictions at three levels of detail ranging from a simulation method for  
use in detailed geometric design at the link level to an aggregate method for use in investment planning at the sectoral level  
The models were estimated using the comprehensive database collected in the Brazil UNDP World Bank highway research  
project and were validated along with data sets from India One of the significant contributions to highway economics  
research made in this study is the probabilistic limiting velocity approach to steady state speed prediction which combined  
with the aggregate mechanistic methodology will provide a possible basis for future research on the far more complex  
problem of operating costs under congested conditions **The New Encyclopædia Britannica** ,1981 **Annual Report**

encounter new concepts through hands on activities in the Explorations Manual enabling them to construct their own  
understanding of the material The text then serves as a resource for further investigation explanation and clarification Unlike  
most texts which present exercises very similar to examples Bassarear demonstrates how real life problems are generally

complex and often filled with ambiguity Students learn that there may be more than one way to find an answer and even more than one answer     Curriculum Guide for Secondary Schools Kenya. Ministry of Education,1973     Independent Schools ,1978
