ECEL 2020 19th European Conference on e-Learning Prof. Dr.-Ing. Carsten Busc., Prof. Dr. Tilo Wendler, Martin Steinicke, 2020-10-29 *Assessing Academic Literacy in a Multilingual Society* Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully. The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience. *The Statesman's Yearbook 2024* Palgrave Macmillan, 2024-01-03 Now in its 160th edition *The Statesman's Yearbook* continues to be the reference work of choice for accurate and reliable information on every country in the world.
