**The Nature of Environmental Stewardship** Johnny Wei-Bing Lin, 2016 Environmental issues appear deceptively simple science tells us what the problems are and how to solve them and for Christians the Bible motivates us to care for creation And yet both in society in general as well as in the Christian church in particular we cannot seem to agree on what to do regarding environmental issues In this book climate scientist Johnny Wei Bing Lin argues that determining the content of environmental stewardship far from being a straightforward exercise is a difficult and complex endeavor He sets forth a general taxonomy drawing from worldviews ethical theories science epistemology science policy studies politics and economics that can help us better understand what excellent creation care consists of and how to bridge the differences people have regarding environmental issues Dr Lin wants peace between folks who are well intentioned but unable to agree be they Christians or not Peace as we wrestle with science and Scripture over our stewardship of God's beloved creation Lin gives us well considered ways to sift competing views and supposed facts This book comes from a master teacher and irenic fellow struggler A very important synthesis of worldview driven informed arguments Terry Morrison Director Emeritus Faculty Ministry InterVarsity Christian Fellowship USA By carefully breaking environmental stewardship down into its component parts this book offers readers a framework to dialogue instead of debate the imperative of creation care Grappling with the fact that today's ecological and economic challenges cannot be contained by a simple ideology nor a single imagination Lin guides us toward both a practical synthesis of collective human wisdom and a higher level of conscientiousness in protecting all that God loves Kaleb Nyquist Steering Committee Member Young Evangelicals for Climate Action Johnny Wei Bing Lin BS and MS Stanford University PhD UCLA was Professor of Physics at North Park University where he remains Affiliate Professor of Physics and Engineering Currently he is Senior Lecturer and Director of Undergraduate Computing Education in the Computing and Software Systems Division at the University of Washington Bothell
