A Brief Political and Geographic History of Europe (Where Are Prussia, Gaul, and the Holy Roman Empire?) Frances E. Davey,2010-12-23

Prussia Gaul The Holy Roman Empire These places played a crucial role in the development of Western Europe But where were they and what happened to them The borders of countries and territories shifted over time as kings and queens prime ministers and farmers demanded political religious and economic change Greedy dictators and emperors grabbed as much land as they could Peasants and revolutionaries wanted to secure a better future for themselves and their families Open this book and explore exciting places and times through pictures maps and stories Meet Julius Caesar and Marie Antoinette root for the British or the French at the Battle of Trafalgar and take a peek behind the Iron Curtain Wander through modern day Europe crossing borders and spending euros Lose yourself in a world gone by and wonder at the complex place Western Europe is today

Germany, 1871-1945 Raffael Scheck,2008-10-01 Germany 1871 1945 presents an original lucid and thought provoking history Its aim is to inspire readers to weigh the historical evidence At the end of the Second World War the first unified German state collapsed a disintegration with European and global ramifications Ever since historians have sought to explain what went wrong in German history Many have focused on the violence which forged unification others have highlighted the clash of authoritarian anti democratic and anti Semitic traditions with rapid industrialization and modernization Germany 1871 1945 presents a pragmatic interpretation of German history from the unification to the end of the Nazi regime This more open approach acknowledges the strong trend in German society towards modernization and democratization particularly before 1914 while also highlighting the factors which propelled Germany toward World War I The rise of the Nazis also demands a close analysis of the economic and political instability of the 1920s and early 1930s Finally a detailed assessment of the Third Reich explains how the regime s early successes fostered a loyalty and acceptance that remained hard to shake until disaster was obvious and unavoidable

*The Third Reich* David G. Williamson,2018-01-29

The Third Reich is a succinct comprehensive examination of the major debates surrounding this crucial period in modern German history. The character and operation of the Nazi state and of its global consequences have been discussed and disputed since 1933. David G. Williamson's Seminar Studies text now in its fifth edition provides students with a lucid introduction to the Third Reich and highlights the relevant research, scholarship and controversies. The new edition has been expanded to give increased coverage to such topics as ethnic cleansing in Poland and Russia, the role of the Wehrmacht, the Holocaust, attitudes of ordinary Germans to the Third Reich, the German opposition, Nazi foreign policy and the German economy. Accompanied by a wide range of primary sources, a timeline, maps and a glossary, *The Third Reich* remains the best available introduction to this short-lived but enormously impactful period in world history.
