**African linguistics on the prairie** Jason Kandybowicz, Travis Major, Harold Torrence, Philip T. Duncan, 2018-06-15

African Linguistics on the Prairie features select revised peer reviewed papers from the 45th Annual Conference on African Linguistics held at the University of Kansas. The articles in this volume reflect the enormous diversity of African languages as they focus on languages from all of the major African language phyla. The articles here also reflect the many different research perspectives that frame the work of linguists in the Association for Contemporary African Linguistics. The diversity of views presented in this volume are thus indicative of the vitality of current African linguistics research. The work presented in this volume represents both descriptive and theoretical methodologies and covers fields ranging from phonetics, phonology, morphology, typology, syntax and semantics to sociolinguistics, discourse analysis, language acquisition, computational linguistics and beyond. This broad scope and the quality of the articles contained within holds out the promise of continued advancement in linguistic research on African languages.

*The Oxford Guide to the Bantu Languages* Lutz Marten, Ellen Hurst-Harosh, Nancy C. Kula, Jochen Zeller, 2025. This volume brings together leading scholars from the African continent and beyond to provide a detailed account of the languages of the Bantu family. The book will be an essential resource for students and researchers specializing in the Bantu languages and for typologists and comparative linguists more broadly.

Transforming the Future of Learning with Educational Research Askeel-Williams, Helen, 2015-01-31. The field of education is a vital component of today's society, enriching and facilitating the attainment of new knowledge. Progress continues to be achieved in this area as new methods are envisioned that increase education's value. *Transforming the Future of Learning with Educational Research* brings together diverse perspectives that underscore the importance of research practices toward the enrichment of teaching. Highlighting themes of learning, diversity, education, communities, and student wellbeing, this book is an essential reference source for teacher educators, researchers, teaching practitioners, and professionals interested in the value of research within the field of education.

*Global Perspectives on Youth Language Practices* Cynthia Groff, Andrea Hollington, Ellen Hurst-Harosh, Nico Nassenstein, Jacomine Nortier, Helma Pasch, Nurenzia Yannuar, 2022-02-07. Most journal articles, edited volumes, and monographs on youth language practices deal with one specific variety, one geographical setting, or with one specific continent. This volume bridges these different studies and it approaches youth language from a much broader angle. A global framework and a diversity of methodologies enable a wider perspective that gives room to comparisons of youth's manipulations and linguistic agency, transnational communicative practices, and language contact scenarios. The research presented addresses structural features of everyday talk and text, youth identity issues related to specific purposes and contexts, and sociocultural emphases on ideologies and belonging. Combining insights into sociolinguistic and structural features of youth language, the volume includes case studies from Asia, Indonesia, Australia, and Oceania, Arnhem Land, New Ireland, South America, the Amazon, Chile, Argentina, Europe, Germany, Spain, and Africa, Uganda.

Nigeria DR Congo Central African Republic South Africa It expands on existing publications and offers a more comparative and global approach without a division of youth s strategies in terms of geographical space or language family This collection including a conceptual introduction is of interest to scholars from several linguistic subfields working in different regional contexts as well as sociologists and anthropologists working in the field of adolescence and youth studies *Ubuntu*

Marietjie Oelofsen, Upenyu Majee, Bongani Mgijima, Jamie Monson, 2024-08-20 *Ubuntu Interdisciplinary Conversations Across Continents* is a collection of work by 17 scholars emerging from the Ubuntu Dialogues Seminar Exchange Fellowship hosted by Stellenbosch University in South Africa and Michigan State University in the US between 2019 and 2022 This collaborative work brings new voices and new ways of interrogating a concept that holds possibilities for living together differently The contributions problematise the concept in provocative and surprising ways and disrupt narrow and superficial interpretations of Ubuntu The contributors to this book foreground critical issues which are fundamental towards a deeper understanding of the notion of ubuntu Dr Sithembele Marawu University of Fort Hare This book features next generation rising stars from places such as South Africa Zimbabwe Malawi Burundi and the US writing about ubuntu the indigenous southern African term often used to capture African philosophy especially its moral dimensions A fresh kaleidoscopic engagement with ubuntu Professor Thaddeus Metz University of Pretoria
