Analysis of short-term instruments of export financing as well as the various forms of financing via supplier credits for medium-term export financing, taking into account the risk protection costs Valentina Barysava,2019-04-10 Bachelor Thesis from the year 2017 in the subject Business economics Trade and Distribution grade 1 3 University of Applied Sciences Braunschweig Wolfenb ttel Salzgitter language English abstract This Bachelor thesis is aimed at all exporters who are interested in doing business with Belarus and who want to

inform themselves about the coverage of del credere risks and export financing because export financing is nowadays expected as part of the offer. Consequently the aim of this work is to examine the instruments of short term export financing and the forms of medium term financing taking into account the risk hedging costs for decision making in export business with Belarus. The risks are covered by export credit guarantees issued by the Federal Republic of Germany. Export financing is provided through supplier credits for the purposes of competitive differentiation. All instruments examined were used to refinance supplier credits. Such decision methods as cost comparison and SWOT analysis are used to determine the appropriate instrument. After the SWOT analysis risks, opportunities and such important criteria as security, liquidity, inflow, creditworthiness, requirements and administrative expenses are assessed. The use of the SWOT analysis reduces the probability of a risk or opportunity miscalculation and thus of a wrong decision.
