Joseph R. Chambers, Mark A. Chambers

2013 Unofficial Mark Scheme:

Justice in Conflict Mark Kersten, 2016 What happens when the international community simultaneously pursues peace and justice in response to ongoing conflicts What are the effects of interventions by the International Criminal Court ICC on the wars in which the institution intervenes Is holding perpetrators of mass atrocities accountable a help or hindrance to conflict resolution This book offers an in depth examination of the effects of interventions by the ICC on peace justice and conflict processes The peace versus justice debate wherein it is argued that the ICC has either positive or negative effects on peace has spawned in response to the Court s propensity to intervene in conflicts as they still rage This book is a response to and a critical engagement with this debate Building on theoretical and analytical insights from the fields of conflict and peace studies conflict resolution and negotiation theory the book develops a novel analytical framework to study the Court s effects on peace justice and conflict processes This framework is applied to two cases Libya and northern Uganda Drawing on extensive fieldwork the core of the book examines the empirical effects of the ICC on each case The book also examines why the ICC has the effects that it does delineating the relationship between the interests of states that refer situations to the Court and the ICC s institutional interests arguing that the negotiation of these interests determines which side of a conflict the ICC targets and thus its effects on peace justice and conflict processes While the effects of the ICC s interventions are ultimately and inevitably mixed the book makes a unique contribution to the empirical record on ICC interventions and presents a novel and sophisticated means of studying analyzing and understanding the effects of the Court s interventions in Libya northern Uganda and beyond

Stone Canvas Pawel Lech Polkowski, 2023-03-27 This book presents proceedings of the conference devoted to rock art and graffiti studies in Egypt and Sudan that took place in Cairo from 10th to 12th November 2019 The thematic spectrum of the contributions is very wide in terms of both their geographical and their chronological range encompassing figural and textual sources dating from the Late Palaeolithic through the Predynastic Dynastic and Graeco Roman periods up to Christian and Islamic times Many of the papers combine evidence from various archaeological domains and also attempt to better integrate graffiti and rock art materials in search of a common ground for research Thus the volume provides a good overview of the current state of investigations in these two fields of study in Egypt and Nubia

The Socialist Ideas of the British Left's Alternative Economic Strategy Baris Tufekci, 2019-11-30 This book provides the first book length study of the political and economic ideas of the British left s Alternative Economic Strategy in the 1970s and early 1980s Discussing the AES s approaches to capitalism the nation state and the working class it argues that existing academic accounts have significantly overstated the radicalism of the strategy Perhaps more notable especially in the light of its stated revolutionary aims was the extent of its moderation its continuities with post war Labour revisionism its marked reluctance to look beyond the market economy the degree of its preoccupation with Britain s global economic status and its inability to break with Labourist politics of class co operation in the national interest While the book argues

that the AES was the last class politics socialist initiative in mainstream British politics it also explores the ways in which its ideas perhaps prepared the way for New Labour in the 1990s and its relationship with Corbynism since 2015

Transnationalisation and Legal Actors Bettina Lemann Kristiansen, Katerina Mitkidis, Louise Munkholm, Lauren Neumann, Cécile Pelaudeix, 2019-06-10 Transnational tendencies have led to a pluralistic legal environment in which emerging and established legal actors regulatory levels and types of legal norms co exist compete and interact in complex ways This challenges and changes not only how legal norms are created applied and enforced but also when these actors norms and processes are considered legitimate The book

investigates how states and non state actors interact in transnational settings and pays attention to the understudied question of what effect transnational tendencies have on the legitimacy of legal actors norms and processes It seeks to confront three fundamental questions Has legitimacy significantly changed Who creates norms and with which consequences for legal procedures and norms The book considers the question of legitimacy from a broad range of legal perspectives including environmental law human rights law and commercial law It maps out the contours of legitimacy today with an emphasis on the reactions of central actors like states and courts to transnational tendencies The book thereby provides a conceptually powerful structure within which to further debate the complexity of transnational tendencies in law and proposes innovative approaches to problem solving while designing pathways for further reflection on the development of law in a transnational context
