Staying with the Trouble Donna J. Haraway, 2016-08-25 In the midst of spiraling ecological devastation multispecies feminist theorist Donna J Haraway offers provocative new ways to reconfigure our

relations to the earth and all its inhabitants She eschews referring to our current epoch as the Anthropocene preferring to conceptualize it as what she calls the Chthulucene as it more aptly and fully describes our epoch as one in which the human and nonhuman are inextricably linked in tentacular practices The Chthulucene Haraway explains requires sym poiesis or making with rather than auto poiesis or self making Learning to stay with the trouble of living and dying together on a damaged earth will prove more conducive to the kind of thinking that would provide the means to building more livable futures Theoretically and methodologically driven by the signifier SF string figures science fact science fiction speculative feminism speculative fabulation so far Staying with the Trouble further cements Haraway s reputation as one of the most daring and original thinkers of our time

The Subjugation of Canadian Wildlife Max Foran,2018-04-10

Hardly a day goes by without news of the extinction or endangerment of yet another animal species followed by urgent but largely unheeded calls for action An eloquent denunciation of the failures of Canada s government and society to protect wildlife from human exploitation Max Foran s The Subjugation of Canadian Wildlife argues that a root cause of wildlife depletions and habitat loss is the culturally ingrained beliefs that underpin management practices and policies Tracing the evolution of the highly contestable assumptions that define the human wildlife relationship Foran stresses the price wild animals pay for human self interest Using several examples of government oversight at the federal provincial and territorial levels from the Species at Risk Act to the Biodiversity Strategy Protected Areas Network and provincial management plans this volume shows that wildlife policies are as much or more about human needs priorities and profit as they are about preservation Challenging established concepts including ecological integrity adaptive management sport hunting as conservation and the flawed belief that wildlife is a renewable resource the author compels us to recognize animals as sentient individuals and as integral components of complex ecological systems A passionate critique of contemporary wildlife policy The Subjugation of Canadian Wildlife calls for belief change as the best hope for an ecologically healthy wildlife rich Canada

What to Eat When Michael F. Roizen,Michael Crupain,2019-01-10

What if eating two cups of blueberries a day could prevent cancer If drinking a kale infused smoothie could counteract missing an hour s worth of sleep When is the right time of day to eat that chocolate chip cookie And would you actually drink that glass of water if it meant skipping the gym This revolutionary guide reveals how to use food to enhance our personal and professional lives and increase longevity to boot What to Eat When is not a diet book Instead acclaimed internist Michael Roizen and certified physician Michael Crupain offer readers choices that benefit them the most whether it s meals to help them look and feel younger or snacks that prevent diseases based on the science that governs them

Fundamental Topics

in Plastic Surgery Diego Marre,2018-03-21 Given the wide ranging nature of the literature one must study in plastic surgery

training a solid grounding in many fundamental principles and procedures is an absolute prerequisite to becoming a competent plastic surgeon. And yet until now there has been no single source that collects these fundamental topics in one volume rather the information has had to be gleaned from the introductory chapters of multiple comprehensive textbooks. The present volume takes a new approach and provides the trainee an opportunity to learn these fundamentals more efficiently and comprehensively through a single book. This work will prepare the trainee to confidently advance to the more specific core topics in reconstructive and aesthetic plastic surgery. Key Features: Highly efficient presentation and organization of all fundamental plastic surgical topics. 21 chapters cover such topics as patient safety, normal and abnormal wound healing, local anesthesia and nerve blocks, soft tissue infections and antibiotics, implants and biomaterials, basic surgical techniques, grafting of fat, skin, bone and other tissues, flaps, burns, and much more. Each chapter closes with a summary of key points. Ideal for all surgeons in training, *Fundamental Topics in Plastic Surgery* is a complete introduction to the science and technical expertise of aesthetic and reconstructive plastic surgery.
