Volpe White, Kathy L. three core beliefs first that teacher quality is a shared responsibility between universities and school districts second that all students have a right to high quality teachers who are as racially ethnically and linguistically diverse as the students they teach and third that for education to be transformative future educators must have the right balance of theoretical knowledge and practical experiences grounded in specific contexts Through a combination of rich description and qualitative and quantitative program data the authors make the case that university programs focused on the communities they serve can ensure more effective learner ready teachers who remain in the profession longer By providing a detailed blueprint for program development the contents of this book will be of value and interest to educational leaders policy makers and researchers
