2014 December Geography Memorandum:

Exclusion and Inclusion in International Migration: Power, Resistance and Identity Armağan Teke Lloyd, 2019-04-30

People on the move face new barriers in a globalizing world. Some of these barriers are related with the rise of an increasingly security oriented approach towards international migrants. Notwithstanding the forces of globalization, states have maintained their monopoly power over whom to admit and whom to deny within their borders. In other words, they remain the sovereign authority regulating the entry and exit of people. However, in recent years, a number of states have singled out international immigration as the greatest political and social threat to their cultural and national security. The securitization of immigration is founded upon the premise that the international movement of people represents an exceptional risk for the survival of the nation and this is often associated with terrorism, instability and criminality. The securitization of immigration is also based on the idea that the traditional authority vested in states to regulate immigration is somehow insufficient and needs to be enhanced. These assumptions correspond with a real policy shift in some countries such as the United States where the government is planning to spend approximately 23 Billion Dollars on border security and immigration enforcement in 2019 alone. This edited volume is an exploration of the global landscapes inhabited by refugees and labour migrants, although the focus is largely on the former. Despite the fact that most of the empirical studies are drawn from within Europe, the book also includes research on Nepal, Australia, the Middle East and Japan in order to reveal the truly global dimensions of migration and the regimes governing this. Content: INTRODUCTION by Armağan Teke Lloyd PART A Ideology and Governance of Migration CHAPTER 1 Coming to Terms with Liberal Democracy by the Populist Radical Right Parties of Western Europe: Evidence from European Parliament Speeches over Minorities and Migration by Caner Tekin CHAPTER 2 A Forest with many trees: Mapping migration governance and the dispersion of authority in Europe by Lisa Marie Borrelli, Rebecca Mavin and Giorgia Trasciani CHAPTER 3 Policing Migrants in Transit and Upon Arrival: The Bordering Tactic of Integration in Austria and Germany by Olivia Johnson PART B Regulations: Suspension of Human Rights CHAPTER 4 Borders, Exception and Sovereignty: Australia's Migration Policies as Instruments of Suspension of Human Rights and International Obligations by Ana Carolina Macedo Abreu CHAPTER 5 Power and Sandwiched Sovereignty: Nepali Migrant Workers in the Gulf Countries by Hari KC CHAPTER 6 The Body and Embodied Experiences in the British Asylum System: Developing a Conceptual Perspective by Rebecca Mavin CHAPTER 7 Eritrean Unaccompanied Refugee Minors in The Netherlands: Wellbeing and Health by Anna de Haan, Yodit Jacob, Trudy Mooren and Winta Ghebreyes PART C Migrants: Strategies and Identities CHAPTER 8 Social Inclusion Processes for unaccompanied minors in the city of Palermo: Fostering Autonomy through a New Social Inclusion Model by Roberta Lo Bianco and Georgia Chondrou CHAPTER 9 Urban Resistances and Migrant Activism: Challenging the Border Regime in Madrid City by Ana Santamarina and Almudena Cabezas CHAPTER 10 RefConnect: A Mobile Social Network for Refugees by Evdokia Kogia, Styliani Liberopoulou, Nikolaos Alamanos

Hahn,2018-02-08 The Ukrainian crisis that dominated headlines in fall 2013 was decades in the making Two great schisms shaped events one within Ukraine its western and southeastern parts divided along cultural and political lines the other was driven by geopolitical factors Competition between Russia and the West exacerbated Ukraine s divisions This study focuses on the historical background and complex causality of the crisis from the rise of mass demonstrations on Kiev s Maidan Nezalezhnosti Independence Square to the making of the post revolt regime In the context of a new cold war the author sheds light on the role of radical Ukrainian nationalists and neofascists in the February 2014 snipers massacre the ouster of President Viktor Yanukovich and Russia s seizure of Crimea and involvement in the civil war in the eastern region of Donbass Sand, Snow, and Stardust Gretchen Heefner,2025-05-05 A vivid tour of US military

efforts to understand survive and command harsh environments worldwide and beyond Deserts the Arctic outer space these extreme environments are often seen as inhospitable places at the edges of our maps But from the 1940s through the 1960s spurred by the diverse and unfamiliar regions the US military had navigated during World War II the United States defense establishment took a keen interest in these places dispatching troops to the Aleutian Islands North Africa the South Pacific and beyond To preserve the country's status as a superpower after the war to pave runways and build bridges engineers had to understand and then conquer dunes permafrost and even the surface of the moon Sand Snow and Stardust explores how the US military generated a new understanding of these environments and attempted to master them intending to cement America's planetary power Operating in these regions depended as much on scientific and cultural knowledge as on military expertise and technology From General George S Patton learning the hard way that the desert is not always hot to the challenges of constructing a scientific research base under the Arctic ice to the sheer implausibility of modeling Martian environments on Earth Gretchen Heefner takes us on a wry expedition into the extremes and introduces us to the people who have shaped our insight into these extraordinary environments Even decades after the first manned space flight plans for human space exploration and extraplanetary colonization are still based on what we know about stark habitats on Earth An entertaining survey of the relationship between environmental history and military might Sand Snow and Stardust also serves as a warning about the further transformation of the planet whether through desertification melting ice caps or attempts to escape it entirely

The State of African Cities, 2014 United Nations Publications, 2015-09-10 The African continent is currently in the midst of simultaneously unfolding and highly significant demographic economic technological environmental urban and socio political transitions Africa's economic performance is promising with booming cities supporting growing middle classes and

creating sizable consumer markets Despite significant overall growth the continent continues to suffer under very rapid urban growth accompanied by massive urban poverty and many other social problems These seem to indicate that the development trajectories followed by African nations since post independence may not be able to deliver on the aspirations of broad based human development and prosperity for all This report therefore argues for a bold re imagining of prevailing models in order to steer the ongoing transitions towards greater sustainability based on a thorough review of all available options That is especially the case since the already daunting urban challenges in Africa are now being exacerbated by the new vulnerabilities and threats associated with climate and environmental change **Moscow under Construction** Robert

Argenbright,2016-07-26 Moscow under Construction explores the growth of place based opposition to destructive redevelopment practices in Moscow and the consequent changes in city s governance regime The groups of citizens discussed in this study have struggled to defend homes neighborhoods heritage buildings and historic districts and in the process they ve built up civil society and advanced democratization Heritage preservationists and other aggrieved Muscovites have organized themselves into initiative groups and social associations to protect specific places in the city and to influence the planning process and these place defenders have become more confident and capable as citizens Their activities also have caused Moscow s city government to shift along the political spectrum away from highly authoritarian and opaque habits of ruling toward a more open and collaborative governance regime **Neutral Beyond the Cold** Pascal Lottaz,Heinz Gärtner,Herbert R. Reginbogin,2022-06-27 The collapse of the Soviet Union and the wars in Yugoslavia radically changed the security environment in Europe and Central Asia Some predictions assumed the emerging unipolarity of the liberal world order would end neutrality policies in East and West but as this volume shows this was not the case While some traditional Cold War neutrals like Sweden and Finland have been edging closer to security alignment with western institutions there are others like Austria Switzerland Ireland and Malta that remained committed to their traditional nonaligned foreign policy approaches More importantly there are areas of Eurasia that developed new forms of neutrality policies most of them only noticed on the margins of academic discourse This is the first book to systematically explore this new neutralism of the Post Cold War In part one the book analyzes contemporary neutrality discourse on several levels like international organizations UN ASEAN diplomacy and academic theory Part two discusses neutrality related policy developments in Belarus Moldova Ukraine Georgia Serbia Turkmenistan Afghanistan and Mongolia Together the 15 chapters show how on this vast connected landmass references to neutrality have remained a staple of international politics
