value to anyone concerned with the implications of climate related change for maritime jurisdiction territorial sovereignty and statehood Its broader analysis of the existing law and engagement with a range of doctrinal debates through the lens of the question of geographical change will be of interest to scholars and practitioners of the law of the sea the law of territory and the law relating to international boundaries **The Value Line Investment Survey** ,2009 *How to Increase the Value-added of Controlling* Valerian Laval,2018-10-08 Recent megatrends such as increasing complexity volatility internationalization and increased demand for transparency and compliance have changed the expectations towards the controlling function During his professional experience the author observed the increased expectations towards the controlling function If controlling is to maintain its influence in a company it needs to adapt to the changes in management expectations To outline how to increase the value added by the controlling function in multinational production companies four research questions were addressed and answered The questions which were answered were what does controlling involve and which factors influence the set up of the controlling function in a company how are the expectations towards the controlling function changing over time and what is its value contribution how can the controlling function add value to standard reporting and budgeting activities and how can the controlling function add value to reorganization activities

The Role of the Management Accountant Lukas Goretzki,Erik Strauss,2017-09-27 There is considerable national variation in the professionalization and status of the management accountant Although researchers from different countries have contributed to our knowledge about tasks and roles we have limited insights into the development education and socio cultural influences in different countries and surprisingly little is known about the local and national contexts in which these roles are learned and performed This book bridges this research gap using two complementary perspectives The first part explores management accountants in a range of different national contexts providing information about country specific historical developments and educational standards as well as specific roles and tasks The second part focusses on important global developments that will increasingly impact management accountants in the future such as sustainability the financial crisis technology and changing roles By combining local context with a global overview this insightful volume provides an agenda for future research which will be of great interest to scholars and advanced students in management accounting throughout the world **Johannesburg** ,1999 *Who's who in Finance and Industry* ,2001 *Pennsylvania Business Directory, 2001* American Business Directories Staff,Richard Rudisill,2000-12 *The Year Book and Directory of the Illini Club of Chicago* Illini Club of Chicago,1958 *Legal Directory* ,1939 **Becker Professional Education CPA Exam Review - V 1.1 ISC Textbook** Becker Professional Education,2024-12-03 **Flint, Michigan, City Directory** ,1989 *The Official Guide of the Railways and Steam Navigation Lines of the United States, Porto Rico, Canada, Mexico and Cuba* ,1911 *The Telephone directory* National telephone co, ltd,1898 *Poor's Register of Directors and Executives*,
