97may June 2012 Paper 13:

Oil, Power, and War Matthieu Auzanneau, 2020-02-20 The story of oil is one of hubris fortune betrayal and destruction It is the story of a resource that has been undeniably central to the creation of our modern culture and ever present during the darkest exploits of empire the world over For the past 150 years oil has become the most essential ingredient for economic military and political power And it has brought us to our present moment in which political leaders and the fossil fuel industry consider extraordinary and extraordinarily dangerous policy on a world stage marked by shifting power bases Upending the conventional wisdom by crafting a people s history award winning journalist Matthieu Auzanneau deftly traces how oil became a national and then global addiction outlines the enormous consequences of that addiction sheds new light on major historical and contemporary figures and raises new questions about stories we thought we knew well What really sparked the oil crises in the 1970s the shift away from the gold standard at Bretton Woods or even the financial crash of 2008 How has oil shaped the events that have defined our times two world wars the Cold War the Great Depression ongoing wars in the Middle East the advent of neoliberalism and the Great Recession among them With brutal clarity Oil Power and War exposes the heavy hand oil has had in all of our lives and illustrates how much heavier that hand could get during the increasingly desperate race to control the last of the world s easily and cheaply extractable reserves Crisis of Global Sustainability Tapio Kanninen, 2013-01-04 This concise and informative text provides a critical history of the concept of sustainability and the various institutional measures taken to promote implement and enforce sustainable development proposing new organizational solutions to deal with the crisis of sustainability Crisis of Global Sustainability provides for the first time a compact insider description of the evolution and impact of the Club of Rome a global think tank that produced a groundbreaking 1972 study The Limits to Growth which highlighted the dangers of unrestrained economic growth and possible collapse of global economy during the first decades of the 21st century With recent research confirming the validity of these concerns Kanninen asks whether our overarching concept of thinking on world development today should continue to be global sustainability which implies that we still have enough time to make adjustments in our future policies and action Or should the main paradigm of our thinking shift to global survivability a concept that stresses the absolute necessity of immediate and drastic change both in institutions and policies Many environmentalists green politicians and think tanks are speaking today more loudly than ever about the necessity for a major policy institutional and paradigm change and this work is essential reading for students and scholars alike **The Commercial and Financial Chronicle** ,1962 *Commercial and Financial Chronicle Bankers Gazette, Commercial Times, Railway Monitor and Insurance Journal* ,1940 **The Commercial & Financial Chronicle** ,1923 *Bank and Quotation Record* ,1968 *The Routledge Handbook of Anti-Corruption Research and Practice* Joseph Pozsgai-Alvarez, Roxana Bratu, 2025-06-30 The Routledge Handbook of Anti Corruption Research and Practice takes a multidisciplinary and multidimensional approach to provide a comprehensive
