## **Athletic Training Prentice 15th Edition:**

**Athletic Training Case Scenarios** Keith Gorse, Francis Feld, Robert Blanc, 2024-06-01 Every case that athletic trainers respond to is unique but by exposing themselves to a variety of scenarios they can be prepared for almost any situation. Case studies are the easiest way to find this information but oftentimes they come in the form of informal anecdotes or only relate to very specific subjects. *Athletic Training Case Scenarios Domain Based Situations and Solutions* is designed to fill this gap by providing a large number of studies from all five of the domains of athletic training. Keith M. Gorse, Francis Feld, and Robert O. Blanc have gathered true-to-life scenarios for each of the five domains of athletic training, resulting in expert advice on the best response to many possible scenarios. These scenarios were shared by the certified athletic trainers who originally responded to them, coming from their work in industrial settings, high schools, colleges, professional teams, and sports medicine clinics. Each scenario features the actual case as it was first assessed by the athletic trainer in order to give readers an opportunity to use their own judgment and decide the best course of action before the original athletic trainer's own response and recommendations are given. Organized by domain, readers will be able to easily find examples of any case they could imagine. Each domain (prevention, evaluation, and diagnosis, emergency care, treatment, and rehabilitation, and organizational and professional health) has over a dozen scenarios designed to encourage critical thinking. This format gives readers the closest thing to a crash course by exposing them to a diverse array of cases and situations. Athletic training students and clinicians will appreciate the wide range of cases presented in *Athletic Training Case Scenarios Domain Based Situations and Solutions*, providing them with the strong knowledge base they will need to respond to any situation they may experience themselves.
