Kohl, Henri Paul Francfort, J.-C. Gardin (arkæolog), 1984 *Ancient Ammon* B. MacDonald, Younker, 2023-11-13 This work is a presentation on a people of Transjordan known to readers of the Bible as a neighbour and often an enemy of first millennium B C Israel Topics include a review of archaeological research in Ammon the emergence of the Ammonites and Ammonite territory and sites **The Books of Kings** André Lemaire, Baruch Halpern, Matthew Joel Adams, 2010 This collaborative commentary on or dictionary of Kings explores cross cutting aspects of Kings ranging from the analysis of its composition historically regarded to its transmission and reception Ample attention is accorded sources figures and peoples who play a part in the book The commentary deals with Kings treatment in translation and role in later ancient literature While our comments do not proceed verse by verse the volume furnishes guidance from contributors highly qualified to advance contemporary discussion on the book's historical background its literary intentions and characteristics and on themes and motifs central to its understanding both of itself and of the world from which it arose This volume functions as a meta commentary offering windows into the secondary literature but assembling data more fully than is the case in individual commentaries *Arch Of Society* Thomas Levy, 1995-01-01 This volume marks a departure from earlier descriptive archaeological summaries of the Holy Land Taking an anthropological and socio economic perspective many of the leading archaeologists who work in Israel and Jordan today present timely and concise summaries of the archaeology of this region Chronologically organized each chapter outlines the major cultural transitions which occurred in a given archaeological period To explain the processes which were responsible for culture change a review is made of the most recent research

concerning settlement patterns innovations and technology religion and ideology and social organization The material culture of every period of human history in the Holy Land is explored from the earliest prehistoric hominids through the Biblical and historical periods and up to modern 20th century times Each chapter is accompanied by settlement pattern maps and a plate highlighting the major artifacts which archaeologists use to identify the material culture of the period In addition windows are presented which focus on major social issues and controversies such as The Agricultural Revolution the Israelite Conquest of Canaan and Ancient Metal Working and Social Change This volume should provide students and the general reader with a useful reference volume concerning the archaeology of societies which lived and live in the Holy Land
