Jamais peut-être depuis la fin du XVI<sup>e</sup> siècle en Italie l'architecture ne s'est trouvée au seuil d'une pareille crise soumise à une discussion d'une si grande virulence. Dès lors la variété actuelle des approches en architecture on se rend compte qu'est d'ordinaire le bout de course sinon totalement discrédité. The Modernist Garden in France Dorothee Imbert, Hubert C Schmidt '38 Chair in Landscape Architecture Dorothee Imbert, 1993-01-01

The modernist garden which flourished in France between the 1910s and the 1930s vividly mirrored the geometries and cubist aesthetics familiar to the decorative and fine arts of the period. Created by architects and artists these gardens were often conceived as tableaux in which plants played a role only as pigment or texture. This handsomely illustrated book by Dorothee Imbert presents for the first time in word and image a comprehensive study of these arresting architectonic gardens.      Catalogue of Books on the Fine Arts Newcastle upon Tyne (England). *L'architecture Moderne en France*, 1999      Catalogue annuel de la Librairie Française Librairie Française,      **France** Jean-Louis Cohen, 2014-08-15

Everyone knows Notre Dame, the Eiffel Tower and the châteaux of the Loire Valley but French architects have also produced some of the most iconic buildings of the twentieth century playing a central role in the emergence and development of modernism. In France Jean-Louis Cohen presents a complete narrative of the unfolding architectural modernity in the country grappling not only with the buildings but also with the political and critical context surrounding them. Cohen examines the developments in urban design and architecture within France depicting the continuities and breaks in French architecture since 1900 against a broader international background. Describing the systems of architectural exchange with other countries including Italy, Germany, Russia and the United States he offers a new view on the ideas, projects and buildings otherwise so often considered only from narrow nationalistic perspectives. Cohen also maps the problematic search for a national identity against the background of European rivalries and France's colonial past. Drawing on a wealth of recent research this authoritatively written book will challenge the way design professionals and historians view modern French architecture.      *L'architecture moderne en France: Du chaos à la croissance, 1940-1966* Claude Loupiac, 1997      **Architecture** Henry-Russell Hitchcock, 1977

Amid the plethora of vernacular building done in this century and the last Professor Hitchcock was probably the only art historian equipped to chart the trends of the more conscious art of architecture. He reveals here with a constant truth of perspective a period which is far more than a prelude to the age of steel and concrete.
