Document Supply Centre, 1997 **Children's Books in Print, 2007**, 2006 International Encyclopedia of Education, 2009-04-17 The field of education has experienced extraordinary technological/societal and institutional change in recent years making it one of the most fascinating yet complex fields of study in social science. Unequalled in its combination of authoritative scholarship and comprehensive coverage, *International Encyclopedia of Education* Third Edition succeeds two highly successful previous editions (1985, 1994) in aiming to encapsulate research in this vibrant field for the twenty-first century reader. Under development for five years, this work encompasses over 1 000 articles across 24 individual areas of coverage and is expected to become the dominant resource in the field. Education is a multidisciplinary and international field drawing on a wide range of social sciences and humanities disciplines and this new edition comprehensively matches this diversity. The diverse background and multidisciplinary subject coverage of the Editorial Board ensure a balanced and objective academic framework with 1 500 contributors representing over 100 countries capturing a complete portrait of this evolving field. A totally new work, revamped with a wholly new editorial board structure and brand new list of meta sections and articles. Developed by an international panel of editors and authors drawn from senior academia. Web enhanced with supplementary multimedia audio and video files hotlinked to relevant references and sources for further study. Incorporates ca 1 350 articles with timely coverage of such topics as technology and learning, demography and social change, globalization and adult learning, to name a few. Offers two content delivery options: print and online, the latter of which provides anytime/anywhere access for multiple users and superior search functionality via ScienceDirect as well as multimedia content including audio and video files.

Building Inclusive Ethical Cultures in STEM Elisabeth Hildt, Kelly Laas, Eric M. Brey, Christine Z. Miller, 2024-02-22 This book shares innovative approaches to effectively engage students and faculty working in research labs/lab-based classrooms and courses to build inclusive ethical cultures. The frameworks and approaches presented move beyond traditional research ethics training to strengthen the ethical culture in research labs. The chapters in the book showcase best practices and approaches to embedding educational interventions in courses/research labs/departments. The book is based on the two-day workshop *Building Inclusive Ethical Cultures in STEM* April 23-24, 2021. Moving beyond the two-day conference that inspired this collected volume, the various chapters address questions like: What are approaches and tools to integrate ethics education in STEM effectively? How can STEM ethics education be improved? What can researchers do to build more inclusive research environments? How can meaningful discussions about ethics be effectively integrated into STEM courses/research labs/workplace environments? While each chapter takes a different perspective and is located in its respective context, the

contributions are united by the goal of effectively including ethical reflection in STEM education Instructors from both four year and two year colleges who teach STEM and lab based STEM courses young principal investigators junior faculty who are in the process of building their research groups departmental chairs interested in programmatic approaches for improving mentoring research ethics education and the research culture of their department will find this work to be a very valuable resource in their daily practice
