

# 1948-1953 PONTIAC HYDRA-MATIC SHOP MANUAL

This manual contains information on 1948 through 1953 Pontiac Hydra-Matic transmissions. Arrangement of material in the manual is shown by the table of contents on the right-hand side of this page. A detailed table of contents precedes all of the major sections.

## MAIN BODY OF MANUAL—SECTIONS 1-16

The information presented in this book is based primarily on the 1953 Hydra-Matic transmission. Where a difference exists between 1953 and other models a note will be included in the text advising of the difference. Where differences are extreme or involved, the note will refer the reader to a specific page in the Appendix, Section 17.

## APPENDIX—SECTION 17

The Appendix provides detailed information on units or procedures which are different on 1948-1952 models. This information must be used as noted in the main text and should not be interpreted as a supplement covering all differences on past models. Many differences which do not affect service are not mentioned, while minor differences are included in "Notes" in the main body of the manual.

## PARTS INTERCHANGEABILITY

The fact that service procedures and the appearance of some parts are exactly the same for several models does not necessarily mean that the parts are interchangeable. Always use the Pontiac Master Parts Catalog when ordering new parts.

To make this manual a complete source of Hydra-Matic information, it should be cross-referenced with articles contained in future issues of the "Pontiac Service Information News."
