Thomas Register of American Manufacturers and Thomas Register Catalog File ,2002 Vols for 1970 71 includes manufacturers catalogs **Review of Tropical Reservoirs and Their Fisheries** P. A. van Zwieten,2011 A considerable quantity of data and information were collected on many aspects of the systems of the three reservoirs including hydrological biophysical and limnological features primary production and fish and fisheries data This information was condensed and synthesized with the aim of providing a baseline against which the ecological changes that have taken place since impoundment can be described and analysed Efforts are made to explain changes in fish catch in relation to climatic variations ecological succession and fishing effort The review shows that biological data and information are generally available However as is also common elsewhere all three cases suffer from the general tendency to isolate and compartmentalize research into separate disciplines Lakeland Boating ,1994
