## ABSTRACT

Color terms, especially the three primary colors, bear the weight of basic meaning of color in English and Chinese idioms and usual expressions. The same color has different meanings in different languages, thus it makes Native English speakers and Native Chinese speakers who use other foreign languages puzzled. Therefore, it is necessary to make a language and culture comparative study of the meanings of three primary colors in English and Chinese idioms and usual expressions. This essay uses metaphors and cognition to make the comparative study between color idioms and usual expressions in English and Chinese. It aims at revealing the similarities and dissimilarities of metaphorical cognitive meanings of three primary colors in English and Chinese idioms and usual expressions. This essay provides a perspective for the role of cultural variation of metaphor and plays a role in overcoming the language barriers in communication.

**Keywords:** three primary colors, idioms and usual expressions, metaphorical cognition.

## 1. INTRODUCTION

Color features are the perception and description of human language. It is an important part of the world language. In language, this symbol symbolizes the an understanding of color words. The words of color are generally used in people's cognition and description of the world [1].

Therefore, it is necessary to inherit the colors in human language. Everything in nature, including human language, is in a state of change. The development of language cannot be separated from the development of human language. A more developed language may affect the less developed one. At the same time, it is also conducive to the development of human language in the process of development. In the process of language learning, learners' attention is becoming more and more concentrated[1]. In non-human languages, Kay and McDaniel find an interesting phenomenon, metaphor. The metaphors of color and color terms are closely related. In exploring metaphors and its working mechanisms, the color terms are very useful.

In this essay, metaphorical cognitive meanings of three primary colors in English and Chinese idioms and usual expressions will be studied. Similarities and dissimilarities of three primary colors in English and Chinese idioms and usual expressions will also be searched from the aspect of metaphorical cognition.

This essay is divided into several parts. In the first part, a brief introduction to metaphorical cognition will be shown. In the next part, first it is about similarities of metaphorical cognitive meanings of three primary colors in English and Chinese idioms and usual expressions. Secondly, it is about dissimilarities of metaphorical cognitive meanings of three primary colors in English and Chinese idioms and usual expressions. The last is about the reasons for similarities and dissimilarities of three primary colors' metaphorical cognitive meanings in English and Chinese idioms and usual expressions. The final part is the conclusion.

## 2. LITERATURE REVIEW

Color terms are as common as linguistic phenomena in many kinds of cultures and languages. It is necessary to introduce color terms, as color terms are going to be

*Institutional Politics* Svante Ersson,Jan-Erik Lane,2002-01-31 The New Institutional Politics is a comparative study of the impact of political institutions upon outcomes and covers some of the major themes in the new institutionalism It looks at

how various democratic institutions like Konkordanzdemokratie or corporatism promote better outcomes than Westminster institutions. The evaluation of the performance of political institutions covers the executive, the legislature and the judicial system. The book also looks at economic outcomes such as affluence and GDP growth as well as social ones like income distribution and quality of life. It examines the problems of institutional effects in democracies and dictatorships and provides analysis of some of the major models in political science. This is an exploration of how political institutions matter for political, economic and social outcomes. It estimates their impact in relation to other major factors such as culture and social structure. It is written for political scientists and graduates studying comparative politics. *A Research Agenda for Public Administration* Andrew Massey, 2019. This book addresses salient current issues in public administration research. It seeks to suggest where future research may or indeed ought to be focussed. To advocate the future routes for the development of research this book is divided into themes with a clear overlap between different approaches. The book has contributions that will assist students of public administration, public sector management and public policy especially new PhD students but will also be a useful resource for more established researchers to understand the major emerging issues within the field.

**Aspects of Culture in Modern Society**, 1975 *Challenging the Growth Machine* Barbara Ferman, 1996. Economic development and urban growth are the contested grounds of urban politics. Business elites and politicians tend to forge pro-growth coalitions centered around downtown development while progressive and neighborhood activists counter with a more balanced approach that features a strong neighborhood component. Urban politics is often shaped by this conflict which has intellectual as well as practical dimensions. In some cities neighborhood interests have triumphed in others the pro-growth agenda has prevailed. In this illuminating comparative study Barbara Ferman demonstrates why neighborhood challenges to pro-growth politics were much more successful in Pittsburgh than they were in Chicago. Operating largely in the civic arena Pittsburgh's neighborhood groups encountered a political culture and institutional structure conducive to empowering neighborhood progressivism in housing and economic development policymaking. In contrast the pro-growth agenda in Chicago was challenged in the electoral arena which was dominated by machine ward based politicians who regarded any independent neighborhood organizing as a threat. Consequently neighborhood demands for policymaking input were usually thwarted. Besides revealing why the development policies of two important American cities diverged Ferman's unique comparative approach to this issue significantly expands the scope of urban analysis. Among other things it provides the first serious study to incorporate the civic sector neighborhood politics as an important component of urban regimes. Ferman also emphasizes institutional and cultural factors often ignored or relegated to residual roles in other studies and expounds on their influence in shaping local politics and policy. To add an analytical and normative dimension to urban analysis she focuses on the non-elite actors not just the economic and political elites who compose governing coalitions. Ultimately Ferman takes a more holistic and balanced view of large cities than is typical for urban studies as she argues that

neighborhoods are an important integral part of what cities are and can be For that reason especially her work will have a profound impact upon our understanding of urban politics      *Material Culture* Kenneth L.
