Theatermania in Eighteenth-Century Europe Sonia Bellavia, 2023-04-27 The group volume distinguishes itself by its multidisciplinary comparative approach and by the network of relationships it weaves between the various European languages and cultures

The study takes shape from its different viewpoints and in its diverse contexts to chart a detailed historical conceptual map of the basic role theater played in forging the modern European consciousness. The thematic core of theatermania lay in the authentic theatrical passion that manifested itself in different ways from one country to another throughout the 18th century. While the aesthetic, social and political value of theater took a variety of forms, its central feature was the privileged place it gave to collective and individual social revolutions, phenomena that could be defined as upheavals of the collective imagination which found in theater a source of nourishment, mediation or control. The volume offers not just a series of historical theatrical studies but a view of history that foregrounds the passions that were regularly sparked by theater. It adds an essential feature to the profile of the century that redefined the role and importance of theater and that led to its full re-evaluation in the Romantic age.

The relentless body. L'impossibile elisione del corpo in Samuel Beckett e la *noluntas schopenhaueriana* Orlandini, Lorenzo, 2014-12-31. L'affermarsi prepotente del corpo con i suoi istinti e le sue pulsioni è uno sforzo teso a sopprimere quella stessa spinta: questa potente dialettica segna in maniera profonda le opere di Beckett e si fa cruciale riflesso della più generale tensione tra una vana attesa della fine e la necessità di andare avanti. L'indagine ravvicinata dei testi suggerisce uno speciale legame con il pensiero di Arthur Schopenhauer, rivelando in particolare la contiguità tra il concetto di *noluntas* e la ricerca da parte di molti personaggi di Beckett della *will lessness*, un peculiare stato di quiete e astrazione dalla realtà. Partendo da tali osservazioni, questo studio indaga il tema del corpo all'interno della poetica di Beckett, soprattutto alla luce del suo rapporto con la teoria della volontà schopenhaueriana.
